**CAPITAL:** Charlotte Amalie, St. Thomas.

**CULTURE & LANGUAGE:** Virgin Islanders represent a variety of races and cultural heritages—including African, Puerto Rican, American mainland, French, Danish, Scots and Portuguese. The official language is English, although you may hear a local dialect called Patois (PA-twah), a fusion of African, English, Portuguese, Spanish and Danish languages.

**CLIMATE:** Average temperature ranges from 77°F in the winter to 83°F in the summer.

**RAINFALL:** Prolonged periods of rain are rare, but the islands are subject to occasional hurricanes. The territory has a "rainy season" from October until mid-December. Average rainfall is 40-50 inch-

es per year, although the variation from year to year is considerable.

**CURRENCY:** U.S. Dollar. Traveler's checks and major credit cards are also accepted at most businesses.

**CUSTOMS & TAXES:** No customs duties or sales and luxury taxes. U.S. citizens have a duty free shopping quota of \$1200.

**AREA CODE:** Throughout the USVI the area code is 340.

**TIME ZONE:** Atlantic Standard Time.

**GOVERNMENT:** An unincorporated territory of the United States that has a democratically elected form of government. Residents are U.S. citizens and are governed by U.S. law, but cannot vote for the President of the United States.

**ENTRY REQUIREMENTS:** No passports or immunizations are necessary for U.S. citizens who travel to the Virgin Islands; however, some form of identification should be carried to evidence citizenship (i.e., passport or original birth certificate with picture ID). Non-U.S. citi-

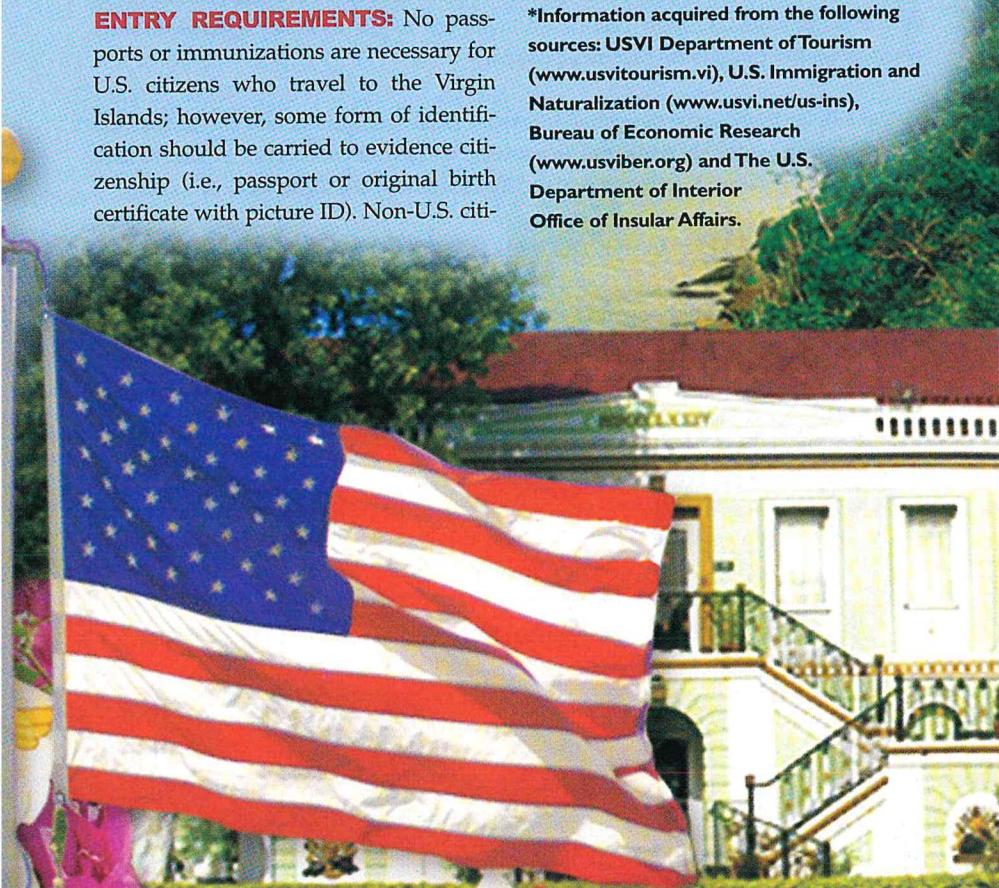

zens traveling to the Virgin Islands are required to have a valid passport and appropriate U.S. visa.

**VOLTAGE:** Electric current is the same as in the United States (120-volt current).

**SAFETY TIPS:** Just as in any other country, you should be cautious when enjoying our islands. Stick to populated areas and well-lit streets in the evening, lock your car and leave valuables out of sight or leave them in the safe deposit box at your hotel or on board your ship. Never leave valuables unattended at the beach.

**POSTAL SERVICE:** U.S. Postal Service provides the same rates and services in the Virgin Islands as in the U.S. Use airmail outside the U.S.

Dear Visitor:

We are delighted to welcome you to St. Thomas, St. John and St. Croix, three charmingly Caribbean, thoroughly American outposts in the U.S. Virgin islands.

Our islands are full of activities for visitors. For those who were drawn here for the sun and surf, we have more than 80 beaches, some of them rugged and secluded, others accessible and active. For sports enthusiasts, we offer a full range of options on land and on water, ranging from golf, paintball and beautiful hikes to scuba, snorkeling and more unusual ways to see below the water—Sea Trekkin', snuba, underwater scooters, an undersea observatory and a tourist-friendly submarine.

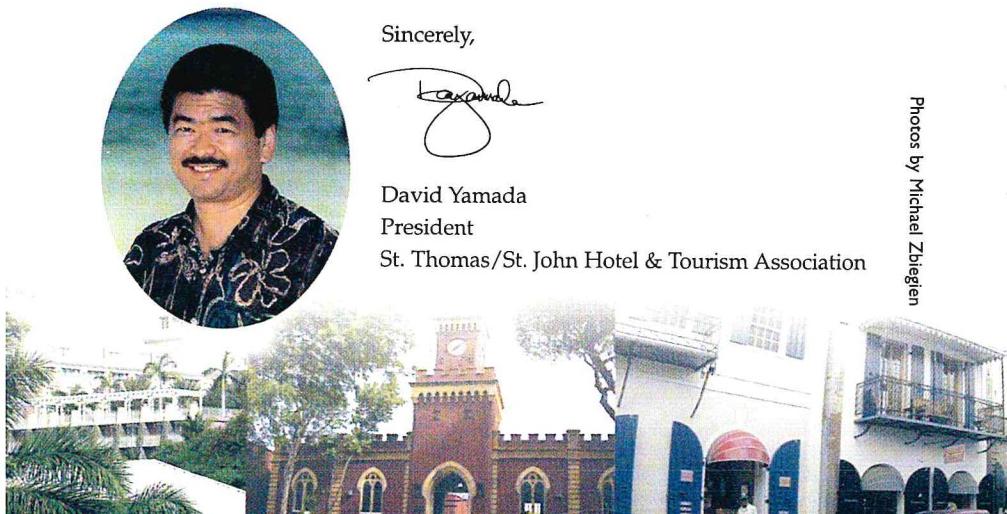

Shopping is a specialty here. With hundreds of duty-free stores selling designer and luxury goods from charming boutiques, we are often cited as having some of the very best retail opportunities in the Caribbean. Accomplished local artists sell their creations in rural and downtown galleries. For more culture, we invite you to join us at our open-air theaters, where plays and concerts are performed regularly.

Our lodging facilities run the gamut from clean, family-run guesthouses and B&Bs to luxurious vacation ownership properties. In between, we have at your service expansive family-oriented hotels, upscale inns and private villas for rent by the night, week or month.

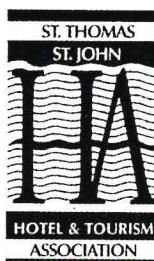

You'll find our residents friendly and eager to help you in any way you want. *Places to Explore St. Thomas, St. John and St. Croix* can help you find the attractions, historical sites and services that will make your stay most enjoyable. We wish you the best of vacations during your time here, and sincerely hope we'll see you again.

The legendary past of the Virgin Islands lives among us today in the historical ruins and 18th century architecture that dot the landscape of these islands. A walk down the narrow streets of our towns brings you back to the days of old when there were no jewelry stores, but warehouses waiting for ships to arrive at one of the busiest ports in the Caribbean. Around each corner, you will discover tantalizing tales of primitive peoples, European adventurers, and pirates and their plunder. Allow these legends to entice you to delve into the fascinating history of the Virgin Islands.

For several thousand years before the Europeans discovered the Virgin Islands, the region was populated by three main groups of people that became known as Indians: the Ciboney, the Taino or Arawak, and the Caribs. Each of these tribes is thought to have migrated up the Lesser Antilles from the South American coast. Of the three groups the Caribs were the most aggressive and warlike and often raided Taino villages for goods and slaves. But fierce as they were, they could not contend with the Europeans.

Sea Grapes

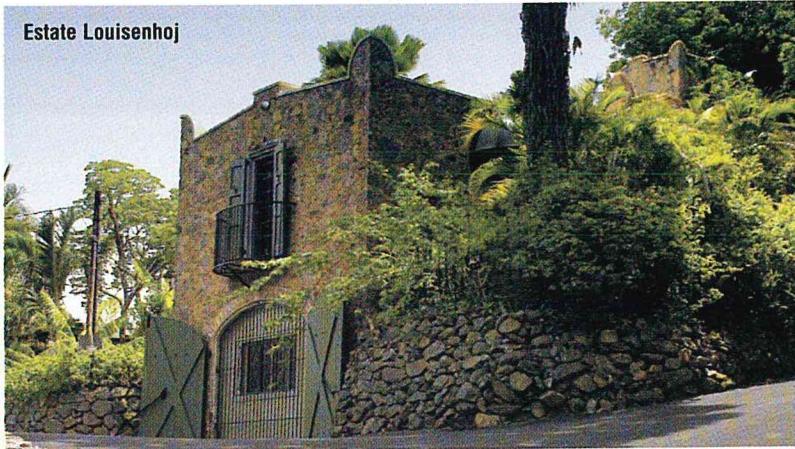

The first Europeans came to the islands with Christopher Columbus, who discovered the numerous islands and cays during his second voyage to the New World in 1493. He christened them Las Islas Virgenes - The Virgin Islands, named for St. Ursula and her eleven thousand sea-going virgins of Christian mythology.

Columbus first sighted St. Croix, which he named Santa Cruz (Holy Cross) and claimed for Spain. After landing at Salt River, he encountered the Caribs and had the first reported fight between the Spaniards and the indigenous peoples of the New World. There never was to be a union between the Europeans and the Indians, which proved to be fateful to the Indians of the Virgin Islands. The Spaniards mined for gold, forcing the native Arawaks to work in the mines. The harsh treatment combined with inadequate food and the diseases introduced by the Europeans, caused them to die out in large numbers. By the 1600's virtually all

Indians had vanished from the Virgin Islands.

Eventually the Virgin Islands would become home to many European nations, including Spain, France, England, The Netherlands, Denmark, the Order of the Knights of Malta and finally the United States. The central position within the Caribbean made the Virgin Islands desirable as trading posts for early colonization. These nations continuously debated with each other over the right to possess them.

Before colonial settlements ever took hold, the islands were home to pirates. They were attracted to the West Indies by the wealth of the newly discovered lands. It is believed they used the islands as a rendezvous to repair and water their ships and may have had irregular and non-permanent settlements throughout the islands. One well-known pirate legend centers around the popular visitor's spot, Drake's Seat, on St. Thomas, where Sir Francis Drake, an English navigator

and pirate, would reportedly watch the Spanish Armada sail by as his ships hid in the refuge of Magen's Bay.

The conditions for piracy were almost ideal: the large number of small islands afforded safe anchorage and refuge, the forests provided suitable woods for repairing, and the proximity of the Virgin Islands to the regular trade routes used by sailing ships entering or leaving the West Indies provided a suitable location. The deep natural harbor of Charlotte Amalie was a favorite among pirates plundering ships laden with gold coins and other valuable items from the European-New World trade routes.

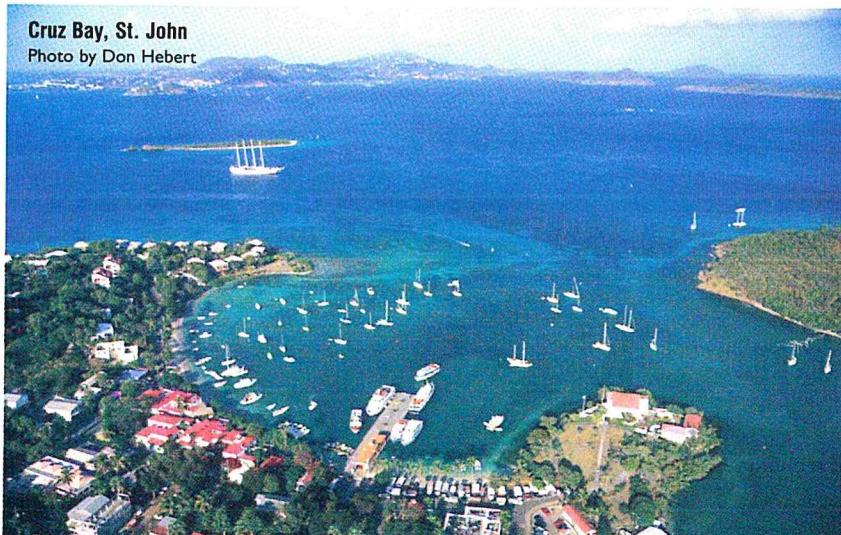

In keeping with the general European trend, the Danes had first been attracted to the West Indies by trading opportunities in the islands. In 1666, the Danes took possession of St. Thomas, and attempted to colonize the island, but met with attacks on the settlement, sickness, and a hurricane. With no support from Denmark, the settlement was abandoned after 19 months. In 1672 a second attempt at colonizing St. Thomas by Denmark was successful. The first permanent set-

tlement was established. The Danish flag was raised and formal possession of the island took place. Although agriculture was the initial interest, it soon became apparent that St. Thomas' future lay in her port and by 1674 development along the waterfront began. The initial taverns that were so popular with the early settlers and seamen gave way to the settlement's name of Taphus ("beer hall") until 1691, when the town was re-named Charlotte Amalie (Ah-MAHL-yah) in honor of the wife of King Christian V.

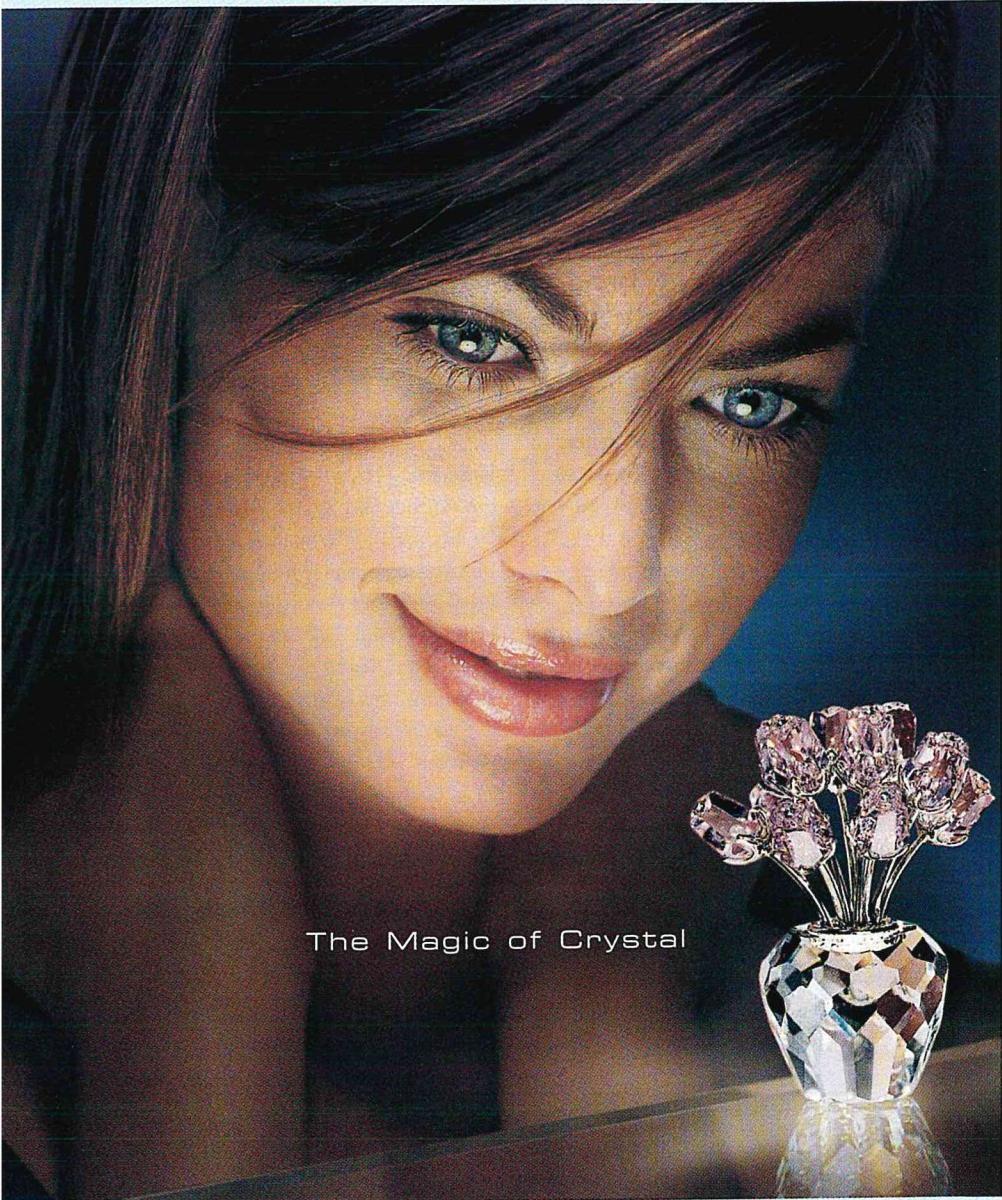

Danish settlement expanded to St. John by 1718. Coral Bay was chosen as the first settlement for its strategic position and suitability for agriculture, especially sugar production. The sugar industry was entirely dependant on slavery, and by 1733 there were more than five times the number of slaves on St. John as owners. In November of that year the slaves on St. John revolted against plantation owners and against slavery. The slaves gained control of the island after slaughtering the entire garrison at Coral Bay's Fort Berg. The Danes recaptured the island in 1734. During the seven-month

revolt almost a quarter of the island's population was killed.

St. Croix became a Danish possession in 1733, after purchasing the island from the French. The occupation and settlement of the island was delayed until 1734, at which time the first settlement was established on the north side of the island in the area now known as Christiansted. The uniting of the three islands under Danish rule transformed them into one of the major sugar producers in the region. While St. Croix and to a lesser extent St. John, became centers of cotton and especially sugar production, St. Thomas, with its excellent harbor, became a great trading center. It was also well known as a slave trading post. It was in Market Square, located on Dronningens Gade (Main Street) in Charlotte Amalie, St. Thomas, that some of the largest slave auctions in the New World took place.

At about the same time, the governors of St. Thomas allowed the island to become a refuge for pirates. Piracy flourished openly and this became the time

that many pirate tales came into being. While pirates truly existed, there are many stories of pirates in the Virgin Islands after 1713 that are simply fictitious tales. The most popular tales are of "Bluebeard" and "Blackbeard" and their so-called "castles" in St. Thomas. These "castles" are actual buildings that still exist today. They were, in reality, two fortified watchtowers intended to give warning of approaching enemy ships, and to give support to Fort Christian in defending St. Thomas.

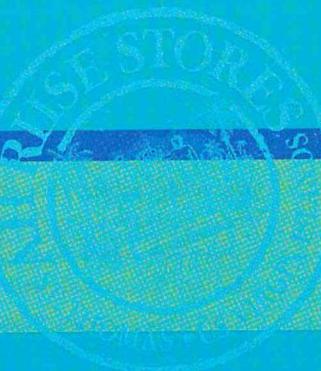

The tale of the pirate Bluebeard, who was said to have murdered his wives and buried them on the terrace, is pure fantasy. In fact Bluebeard never existed. But Blackbeard was the pirate Captain Edward Teach, "a swaggering merciless brute." Well known throughout the Caribbean, Teach was feared by many ships until his death in 1718. Legend has it that he sipped rum laced with gunpowder from his stronghold at Blackbeard's Castle. After almost 150 years in the Caribbean, piracy was on the decline. After 1700, pirates were rare or

As piracy diminished, legitimate trade was on the rise. In 1764, Denmark declared St. Thomas and St. John free ports. This declaration bolstered an economy that could no longer be maintained strictly on agriculture. By 1800, Charlotte Amalie was one of the busiest ports and trading centers for the West Indies. It wasn't until 1833 that St. Croix was declared a free port. The trade restrictions continued later on St. Croix due to its continued importance as a producer and exporter of sugar.

The 18th century saw St. Croix prosper with sugar plantations and St. Thomas become a major trading center, until 1848 when Denmark abolished slavery. The combination of higher labor costs, drought, hurricanes and an increase in beet sugar production from the U.S. and Europe brought about the decline of the Danish West Indies as a major agricultural power.

The late 1800's and early 1900's were subdued years throughout the Virgin

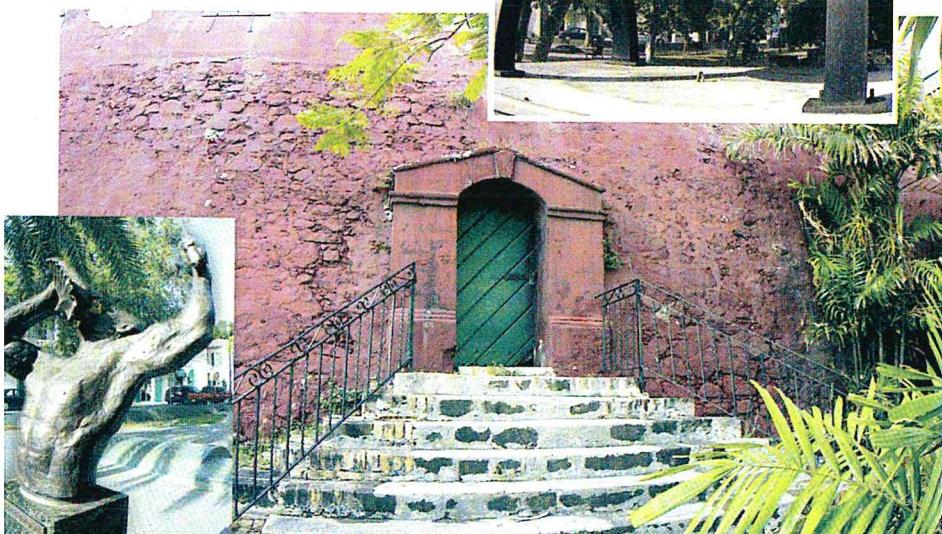

Islands. Several natural disasters, including hurricanes, fires and a tidal wave, left Charlotte Amalie devastated and needing a major rebuilding. Many years would pass before the old warehouses would be renovated into the shopping district now located on Main Street and in the many passageways and side streets throughout Charlotte Amalie.

In 1917, during WWI, the United States purchased the Virgin Islands from Denmark for \$25 million. The U.S. feared German acquisition of the islands and also needed naval bases to defend approaches to the Panama Canal. During WWII, St. Thomas was developed as a defense base. Anti-submarine warfare

and the routing of U.S. convoys through the Caribbean waters gave St. Thomas and St. Croix strategic military importance.

The islands were under the jurisdiction of the department of the Navy until they were transferred to the department of the Interior in 1931. Currently, local government organization is derived from the U.S. Congress under the Revised Organic Act of 1954, which declared the islands to be an unincorporated territory of the U.S. Full U.S. citizenship was not granted to Virgin Islanders until 1927.

Prosperity returned to the Virgin Islands in the 1950's, due to its free port status and as air and sea travel increased. In 1959, when Cuba was closed as a port to Americans travelers, the Virgin Islands moved into importance as a major tourist destination. Tourism and tourist expenditures have been responsible for the dynamic growth of the Virgin Islands since the 1950's.

The official addition of the fourth

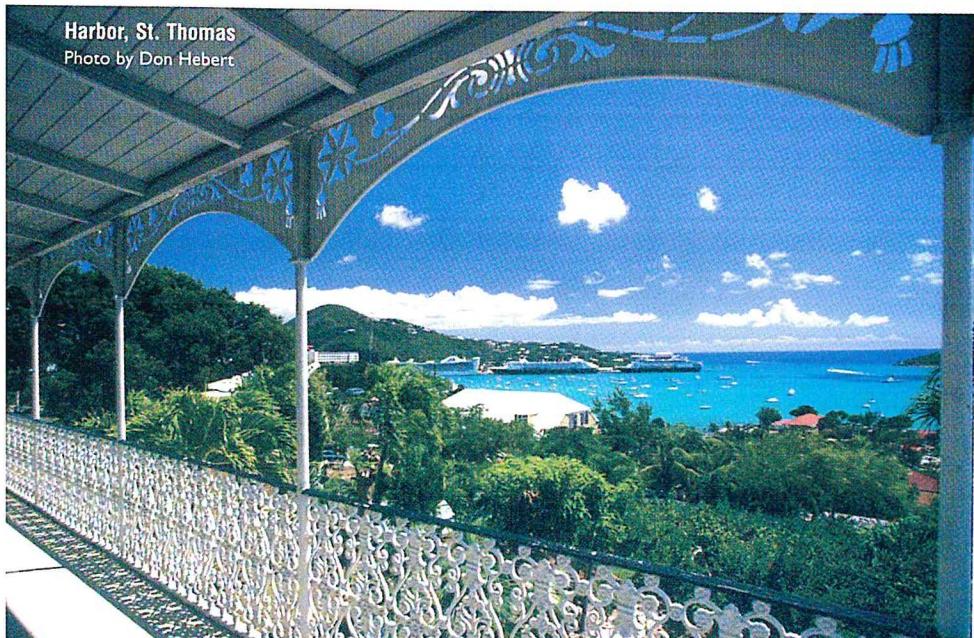

Virgin Island, Water Island, located just off the southern coast of St. Thomas, occurred in 1996, when the island was transferred to the Territorial Government. Previously, Water Island belonged to the U.S. Department of the Interior, who received title from the U.S. Army in 1952. Once a strategic military base during WWII, the island is a quiet and quaint addition to the Virgin Islands.

Today, the islands are a top port of call among cruise lines, a shopping mecca and a popular vacation destination.

# St. Thomas: Lively Up Yourself!

The energy of Charlotte Amalie, one of the most visited ports in the Caribbean, defines St. Thomas for many visitors. The narrow thoroughfares, quaint alleyways and historic buildings bustle with shoppers and explorers alike. Yet St. Thomas has more to offer outside the upbeat rhythm of downtown. Venture from the natural deep-water harbor, up the steep hillsides dotted with traditional red roofs, on to the stunning vistas, tropical terrain, and picturesque sugar-sand beaches. The multi-faceted personality of St. Thomas offers sightseeing for everyone's taste.

## A Walk through Historic Charlotte Amalie

Begin your sightseeing in the charming capital of the Virgin Islands, Charlotte Amalie (Ah-MAHL-yah). The story of St. Thomas and its people unfold as you meander through the narrow streets, colorful alleyways, and steep hills. The Danish street names, distinctive architecture, and stone stairways bring you back to colonial times when

the now stylish stores and restaurants were warehouses full of molasses, rum, spices and other trade goods awaiting export. To learn more about the island, stop by the Tourism Department & Visitor's Information Lounge, located on the east end of town across from the Vendor's Plaza. Pick up maps, brochures and helpful information in the refreshing air-conditioned lounge.

You'll find Charlotte Amalie ideal for exploration on foot. To make your journey a pleasant one, be sure to start early, wear comfortable shoes and cool clothing, drink plenty of water and bring sunscreen to fend off the strong rays of the Caribbean sun. Begin your walking tour at:

**FORT CHRISTIAN** • Located near the waterfront on the east side of Charlotte Amalie, this imposing brick-red landmark is the oldest building in use on St. Thomas and a National Historic Landmark. Named after the Danish King Christian V and built between 1672

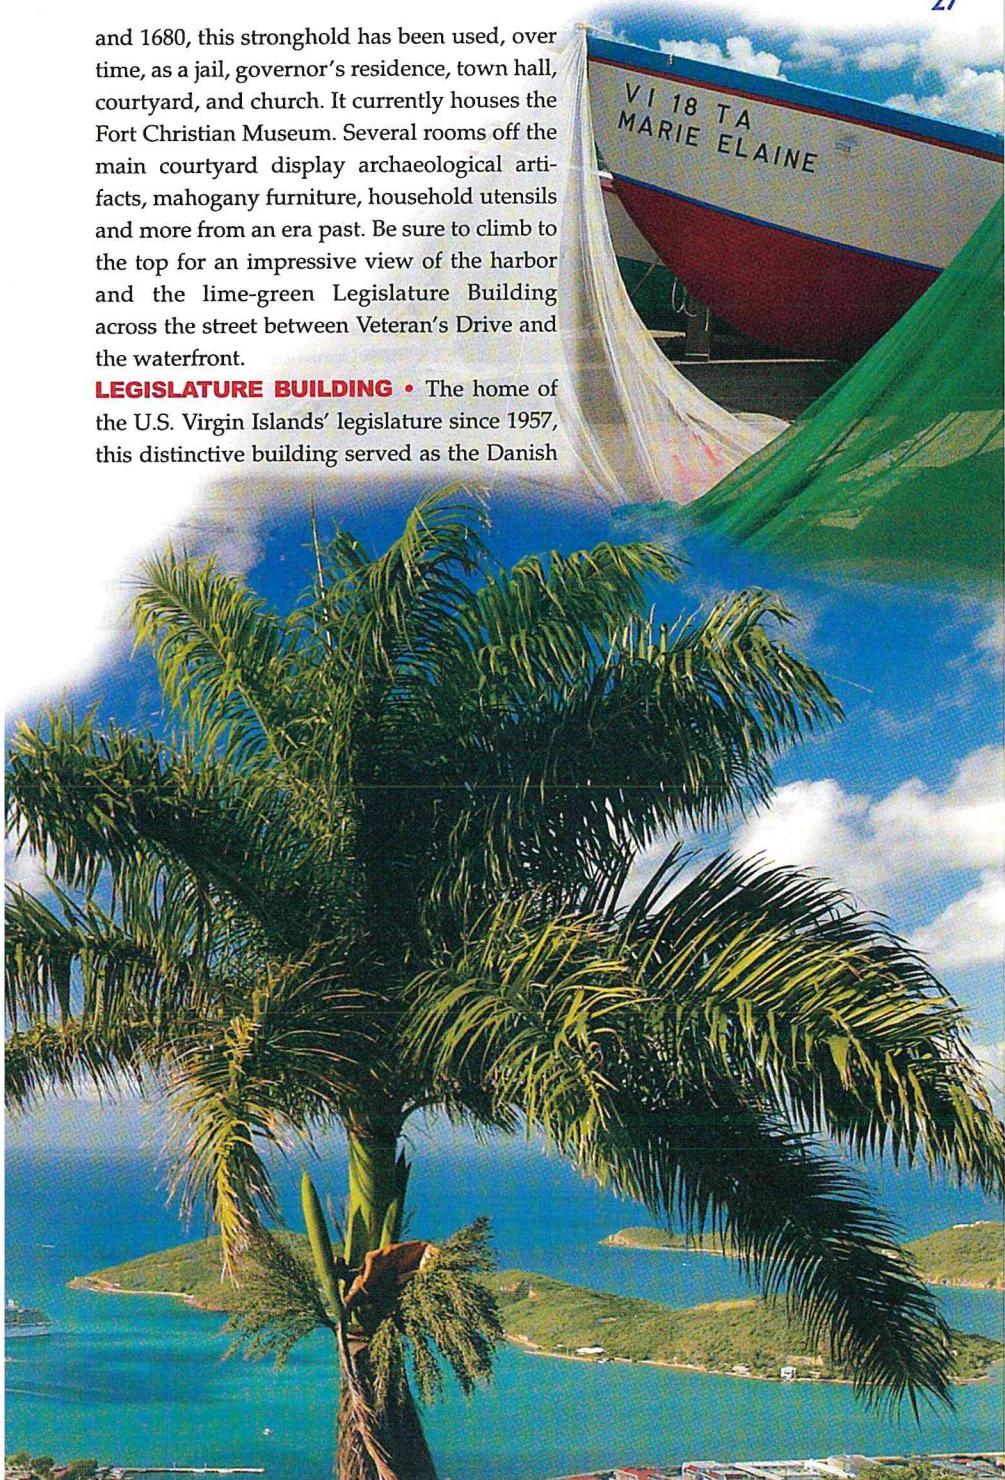

### Island Facts:

Most streets in town retain the Danish name Gade (pronounced Ga-da), in deference to the island's heritage. Gade translates to Street.

and 1680, this stronghold has been used, over time, as a jail, governor's residence, town hall, courtyard, and church. It currently houses the Fort Christian Museum. Several rooms off the main courtyard display archaeological artifacts, mahogany furniture, household utensils and more from an era past. Be sure to climb to the top for an impressive view of the harbor and the lime-green Legislature Building across the street between Veteran's Drive and the waterfront.

**LEGISLATURE BUILDING** • The home of the U.S. Virgin Islands' legislature since 1957, this distinctive building served as the Danish

police barracks before housing the U.S. Marines, then becoming a public school in 1930. Note the Danish coat-of-arms crest painted on the exterior. In 1917, the formal ceremony officially transferring ownership of the U.S. Virgin Islands to the United States took place in this building.

**EMANCIPATION PARK** • Across from Fort Christian, this small park honors the proclamation of the emancipation of the slaves on July 3, 1848. A replica of the United States' Liberty Bell sits in the southwest corner of the park. Emancipation Park is a popular place for locals and visitors to relax on the benches under the shade trees. The white gazebo is the site for many festivities throughout the year.

**GRAND GALLERIA** • Across from Emancipation Park and occupying an entire block sits an excellent example of 19th century architecture, the Grand Galleria. Built in 1841 as the Grand Hotel, the building was renamed the Grand Galleria in 2000. Now home to shops, restaurants and office space, it was once the favorite haunt for the social elite.

**FREDERICK LUTHERAN CHURCH** • On Norre Gade (Main Street), behind the Grand Galleria, off the northeast corner, you'll find one of St. Thomas' most beautiful architectural treasures, the Frederick Lutheran Church. Its vast brick stairway leads inside to antique chandeliers, inscribed 19th century plaques, and pews, each with its own door, once rented to families of the congregation. Originally constructed in the 19th century, the structure has been renovated several times.

**POST OFFICE** • Head west from the Frederick Lutheran Church to the Post Office to view the murals by famed

*Saturday Evening Post* artist, Stephen Dohanos.

**HOTEL 1829**. Directly uphill from the Post Office on Kongens Gade (Government Hill), Hotel 1829, constructed in that same year, was built as a town home for a French sea captain named Lavallette. His initials can still be seen in the grillwork on the balcony above the main entrance.

**99 STEPS** • Continuing east up the hill, you will find yourself at the foot of a steep set of stairs. You have reached the 99 Steps. The stairway, built in the 1700's, is an example of the many stairways that were built into the hillsides due to impractical city planning by engineers in Denmark who had never set foot on the island. The multi-colored bricks used to build the staircase were brought over as ship's ballast. As you head to the top, count the stairs and you will discover there are actually more than 99 steps. The grand views of the town and harbor make the climb worthwhile.

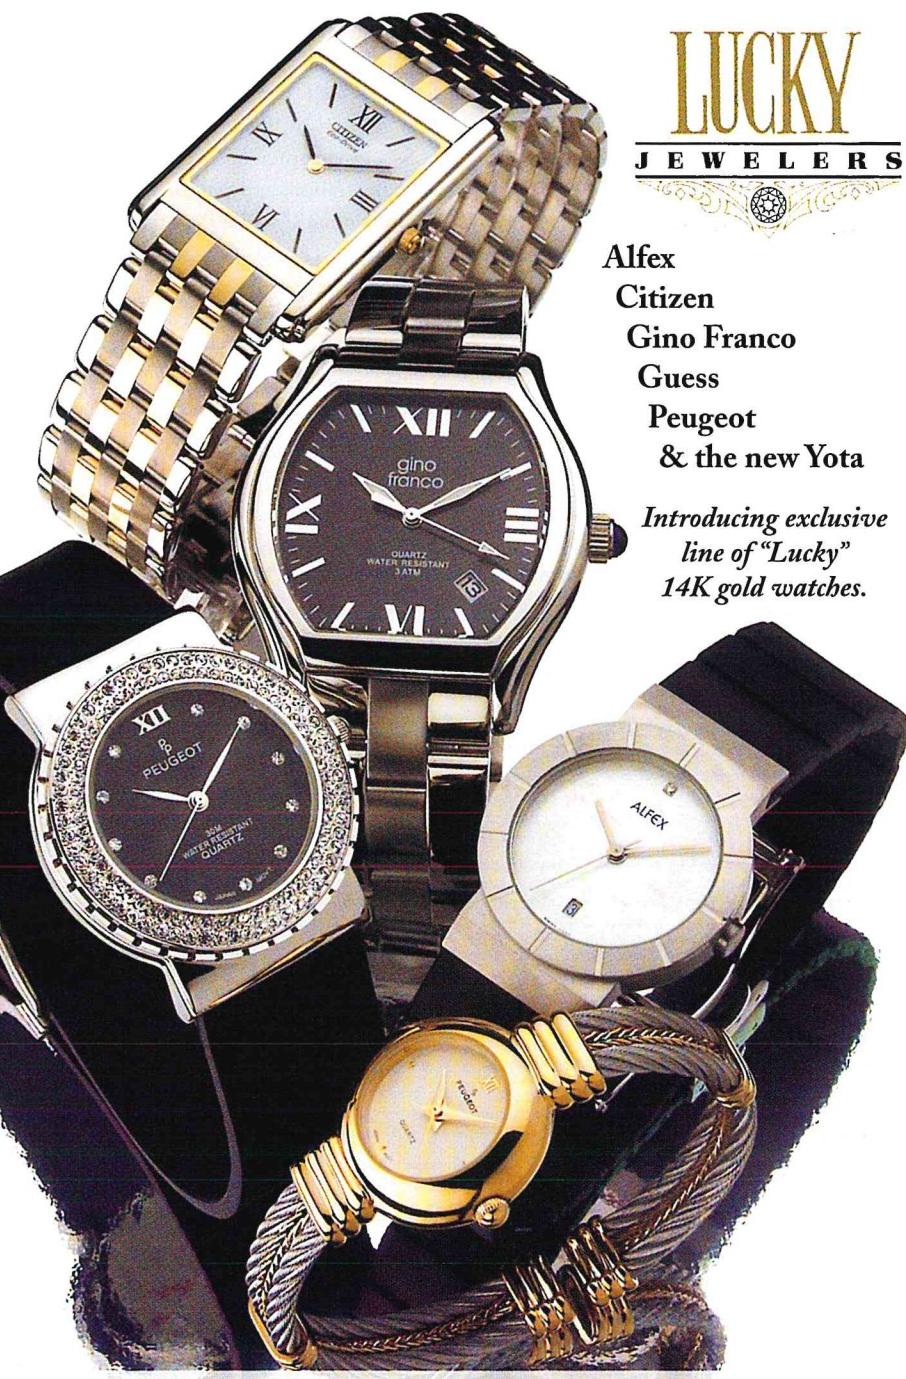

**CROWN HOUSE** • Head left from the 99 steps and you will soon spot the Crown House on your left. Now privately owned, this 18th century house was once used as the governor's residence.

**BLACKBEARD'S CASTLE** • Across from the Crown House, up the stairs, lies Blackbeard's Castle. The tower constructed in 1679 by the Danish colonial government, as a defensive fortification to protect St. Thomas, was once known as Fort Skytsborg. It is the best remaining example of 17th century Danish colonial military architecture in the Virgin Islands, and is the only unmodified 17th century fortified tower in the Caribbean. This National Historic Landmark was rumored to be the legendary home of the pirate Edward Teach, known as

Blackbeard. Legend has it that he sipped rum laced with gunpowder from his stronghold at Blackbeard's Castle.

**FREDERICK CHURCH PARSON-**

**AGE** • Head back down the 99 Steps and continue east on Government Hill to find the Frederick Church Parsonage. Built in 1725, it is one of the oldest houses on the island. It is also the only structure on Government Hill to retain its 18th century architecture.

**GOVERNMENT HOUSE** • Continue

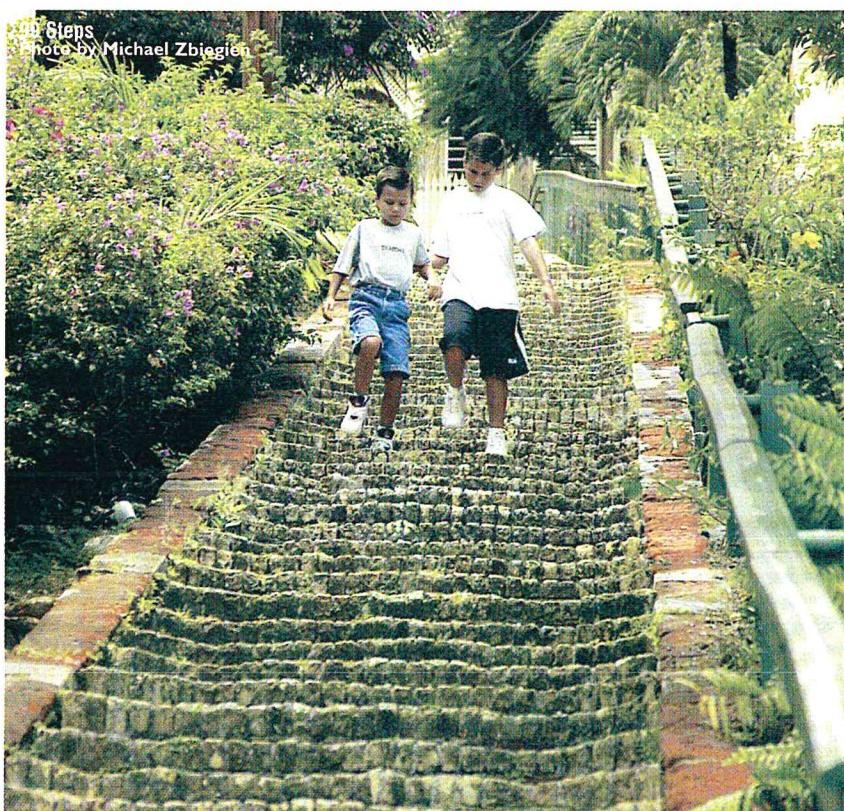

east until you reach Government House on your left. Built as an elegant residence in 1867, today Government House serves as the governor's office and administrative headquarters for all the U.S. Virgin Islands. The three-story white structure houses three murals at the back of the

lobby, which were painted by Pepino Mangravatti in the 1930's as part of the U.S. government's Works Projects Administration, and paintings by French Impressionist Camille Pissarro, who was born on St. Thomas. The red guardhouse at the foot of the building reminds us of the days when the Danish ruled.

Retrace your steps heading west down Government Hill where you will end up on Main Street across from the Post Office. Continue west for one block, past the shops on Main Street, and turn right on Nye Gade, just past the Little Switzerland Main Street store. The Dutch Reformed Church is on the right, on the corner of Nye Gade and Crystal Gade.

**DUTCH REFORMED CHURCH** •

Virgin Islands, services were originally held in Fort Christian. The first church was built in the mid-1670's on the savannah east of the Fort and remained in use until 1731. In the 1740's a new church was built on Snegle Gade, which was later burned in 1804. A new church was immediately erected, but was again destroyed by fire in 1806. The cornerstone of the present church was laid September 18, 1884 and completed and consecrated on February 8, 1846. The Dutch Reformed Church is a striking example of Greek Revival architecture.

**ST. THOMAS SYNAGOGUE** • Head west on Crystal Gade for one block to arrive at the Saint Thomas Synagogue. Its Hebrew name, Synagogue of Beracha Veshalom Vegmiluth Hasidim, translates as the Congregation of Blessing, Peace, and Loving Deeds. The synagogue was built to house a congregation founded in 1796 by Sephardic Jews. Rebuilt in 1833,

it is the second-oldest synagogue in the Western Hemisphere. In 1997 the building was designated a National Historic Landmark. The floor of the synagogue is covered in soft, white sand, which symbolizes the desert that was crossed by Moses and the Israelites, commemorating the exodus of the Jews from Egypt.

From the synagogue, head down Raadet's Gade to Main Street and head west. Among the shops and restaurants is the birthplace of French Impressionist painter Camille Pissarro, duly noted at the entrance of the Camille Pissarro Building and further down Main Street is the Enid M. Baa Public Library, an excellent example of colonial architecture.

**MARKET SQUARE** • Two blocks up from the public library is the site of what was once the largest slave market in the Caribbean, Market Square. The auction blocks now serve as an open-air market where locals sell a variety of

### There's More to St. Thomas

Although Charlotte Amalie is the heart of St. Thomas, there are a number of other exciting points of interest scattered throughout the island. Hire a taxi to take a guided tour or rent a car and enjoy the freedom of sightseeing at your own pace.

**BLUEBEARD'S CASTLE** • Not to be mistaken with Blackbeard's Castle above Charlotte Amalie, this stone tower is located east of downtown on the grounds of Bluebeard's Castle Hotel. This centuries-old fortress bears the name Bluebeard, after the infamous pirate. Legend has it that Bluebeard built the castle for his true love, Mercedita. When the pirate discovered her to be unfaithful, he killed her and sailed away, never to return. In reality, the Danes built the stone tower as a supplementary watchtower to aid the defenses of Fort Christian. The property offers spectacular views overlooking the harbor and town of Charlotte Amalie.

**WEST INDIAN COMPANY DOCK** • Just east of Charlotte Amalie and home to the Havensight Shopping Mall, the West Indian Company Dock is the place to go to view the many visiting cruise ships up close and enjoy the view of the harbor.

**PARADISE POINT** • Up the hill from the West Indian Company Dock, Paradise Point offers a fantastic view of the harbor and beyond. Ride the tramway or drive up the hill to 700 feet above sea level. Browse the boutiques, walk the nature trail or enjoy an end of the day cocktail and catch a fantastic

sunset as you watch the cruise ships leave the harbor.

**TILLETT GARDENS** • Tillett Gardens is located in Anna's Retreat in the Tutu area. Founded by Jim Tillett, a silkscreen artist, the grounds, once an old Danish farm, feature the workshops and stores of local artisans. Throughout the year Tillett Gardens hosts performances at the Pistarckle Theater, art festivals and music concerts, including its popular Classics in the Garden series.

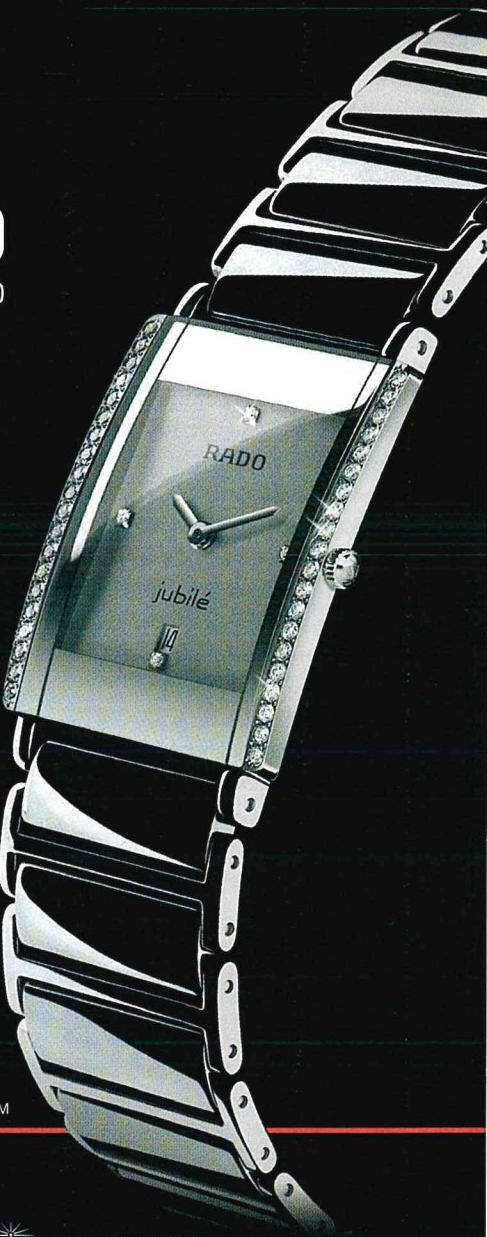

The North Side is home to many attractions and more lush vegetation than is found on the rest of the island. It also offers some of the best views of the harbor to the south and the British Virgin Islands and St. John to the north and east.

**SKYLINE OVERLOOK** • Above Charlotte Amalie is Valdimar Hill Sr. Drive, better known as Skyline Drive (Route 40). The bird's eye view of Charlotte Amalie, the harbor and the cruise ship dock makes this overlook a picture perfect stop.

**DRAKE'S SEAT** • Further west on Route 40, is Drake's Seat, the legendary mountain lookout from which Sir Francis Drake, an English navigator and pirate, would reportedly watch the Spanish Armada sail by as his ships hid in the refuge of Magen's Bay. The panoramic vista is majestic with views of Magen's Bay and Mahogany Run to the North, the British Virgin Islands and

Drake's Passage to the east, and MountainTop, Hull Bay and other smaller islands to the west.

**MOUNTAINTOP** • West from Drake's Seat is MountainTop, home of the World Famous Banana Daiquiri. Although their daiquiri is very tasty, MountainTop is much more than a place for a Caribbean concoction. This attraction boasts many unique shops, a tropical aviary, a restaurant and one of the most breathtaking views of Magen's Bay, the British Virgin Islands and St. John from their terrace at fifteen hundred feet above sea level. The site was previously a communications point for the U.S. Government in the 1940's.

**FAIRCHILD PARK** • At Fairchild Park, below MountainTop, is a fine sampling of Virgin Islands tropical foliage. The park was a gift to the people of the U.S. Virgin Islands from philanthropist Arthur Fairchild.

**ST. PETER GREATHOUSE ESTATE & GARDENS** • Perched high atop the volcanic peaks of St. Thomas, this eleven-acre tropical estate was originally part of the St. Peter Plantation in the 1800's. The lavish grounds have a self-guided nature

trail that leads you through nearly 200 varieties of tropical trees, plants and colorful flowers. Classic native stonework and Caribbean architecture showcase a gallery displaying local art, and the observation deck, 1,000 feet above sea level, astounds you with views of more than 20 other islands and cays.

**THE WEST END** • Traveling to the West End of the island, past the airport, takes you to the University of the Virgin Islands and the Reichhold Center for the Arts. This open-air amphitheater has a unique natural setting with stone, boulders and beautiful vegetation incorporated into the design. The Center offers international attractions of music, dance and drama.

# A Day at the Beach

Have you been dreaming of a peaceful day at the beach with tropical breezes rustling the palm trees and turquoise waves tickling your toes as you sink into the warm white sand? Or is it energy you crave at one of the lively, sun-soaked hubs of activity? The myriad of near-perfect beaches on St. Thomas satisfies every desire. Read on to discover which strand of sand is right for you.

Although all beaches in the Virgin Islands are open to the public, some are on hotel properties and may charge a small fee to use their amenities.

**BOLONGO BEACH** • Best known for the beach volleyball games every Thursday night, you can also find restaurants, a gift shop and water sports rentals. For those looking for a less active beach experience, settle into one of the hammocks strung beachside.

*Located on the South Side of the island at Bolongo Bay Beach Club.*

**BREWER'S BAY** • A favorite with the locals, this normally peaceful beach comes alive on the weekends. Sample the local food and drink offered on the weekends.

*Located on the West End, near the University of the Virgin Islands campus.*

**COKI BEACH** • Bustling with festive food stands,

beach bars and vendors offering snorkel gear, floats and lounge chairs for rent, this beach is a favorite among locals and visitors alike. Its neighbor, Coral World, an underwater marine park and observatory, attract the vast number of tropical fish to the area making it the hot spot for snorkeling and diving.

*Located on the Northeast Side of the island next to Coral World Marine Park.*

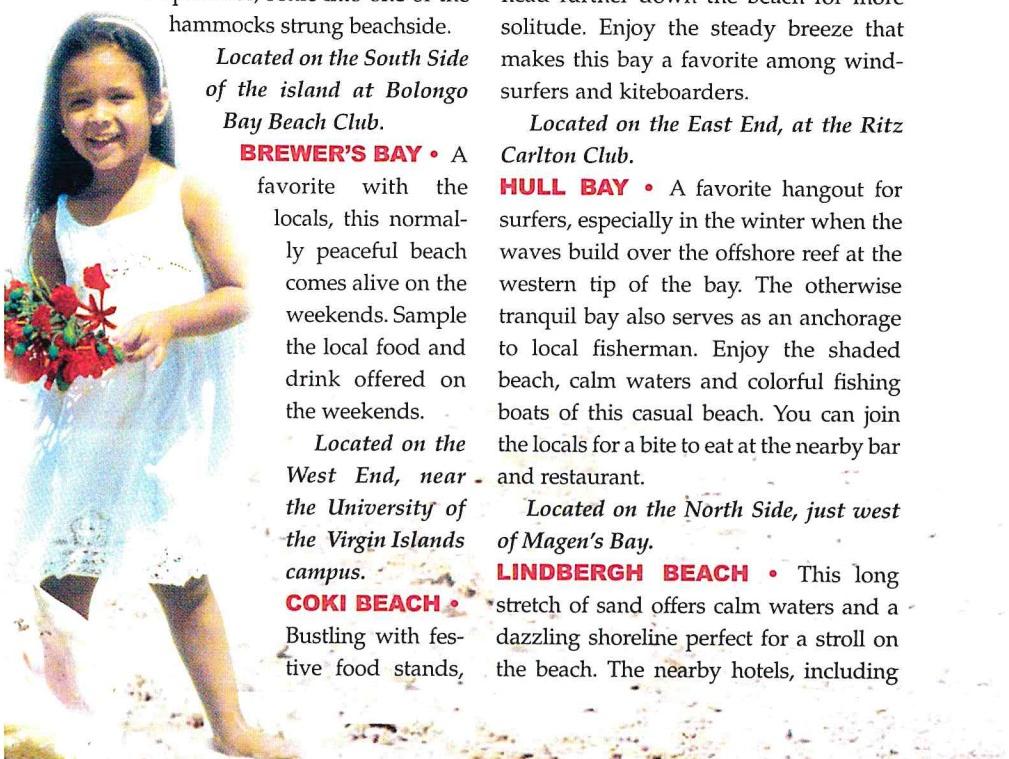

**GREAT BAY** • Formerly known as Bluebeard's Beach and now home to the Ritz-Carlton Club, this gorgeous stretch of white sand beach is still loved by those seeking a peaceful sunbathing experience. The gently sloping, pure sand bottom makes this a great swimming beach that can be enjoyed amidst the amenities of the Ritz Carlton Club or head further down the beach for more solitude. Enjoy the steady breeze that makes this bay a favorite among windsurfers and kiteboarders.

*Located on the East End, at the Ritz Carlton Club.*

**HULL BAY** • A favorite hangout for surfers, especially in the winter when the waves build over the offshore reef at the western tip of the bay. The otherwise tranquil bay also serves as an anchorage to local fisherman. Enjoy the shaded beach, calm waters and colorful fishing boats of this casual beach. You can join the locals for a bite to eat at the nearby bar and restaurant.

*Located on the North Side, just west of Magen's Bay.*

**LINDBERGH BEACH** • This long stretch of sand offers calm waters and a dazzling shoreline perfect for a stroll on the beach. The nearby hotels, including

the Island Beachcomber, Emerald Beach Resort and Carib Beach Resort, offer the added convenience of hotel amenities.

*Located on Airport Road, on the West End of the island.*

**MAGEN'S BAY** • Often touted as one of the top ten beaches in the world, this horseshoe-shaped bay is framed by mountainous peaks on the east and west, a never-ending horizon of blue waters to the north and a stretch of sugar-fine sand dotted with palm trees. The gently sloping beach and clear calm waters make this a safe swimming beach for families with children or those less experienced swimmers. Head to the western end of the beach for more seclusion and better snorkeling.

This full service beach offers picnic tables, changing rooms with salt-water showers, a boutique, and rentals of snorkeling gear, lounge chairs, floats and small sailboats. The full service bar makes refreshing frozen drinks and the snack bar is known for their great pizza. There is an entrance fee that helps maintain this public park.

*Located on St. Thomas' North Side, at the end of Route 35.*

**MORNING STAR BEACH** • With a multitude of amenities at your fingertips, Morning Star Beach offers comfort and one of the most engaging beaches St. Thomas has to offer. The active beach-goer can rent snorkel gear and explore the reefs at either end of the beach, or learn to windsurf or sail from certified instructors. Those looking for a peaceful day at the beach can enjoy a cool drink from one of the two full-service bars while relaxing on a lounge chair under an umbrella. Nestle in with a good book and watch the sailboats and cruise ships stream in and out of the

nearby St. Thomas harbor.

*Located on the South Side of the island at the Marriott Frenchman's Reef Resort.*

**SAPPHIRE BEACH** • With stunning views of St. John, the British Virgin Islands and many other islets and cays, this magnificent beach is not to be missed. The shoreline is scattered with sea grape trees offering shelter from the sun's rays. The soothing sapphire blue waters are great for a refreshing dip or a fantastic snorkel on any of the three reefs just offshore. A favorite for windsurfers and beach volleyball players. The property includes a marina, restaurants and a beachside dive shop, offering rentals on chairs, floats, sunfish and more. Don't miss "Sapphire Sundays" when the beach comes alive with music from local bands.

*Located at Sapphire Beach Resort & Marina, on the East End of the island.*

**SECRET HARBOUR** • A lovely spot for a lazy day at the beach. Bejeweled with palm trees, this small cove features a terraced restaurant and bar, water sports rentals and a floating swim platform to soak up the Caribbean sun.

*Located on the East End of the island at Secret Harbour Resort.*

**VESSUP BEACH** • This beautifully tropical white sand beach is adorned with a variety of flora, including sea grape trees, cacti, and century plants. The shore, strewn with clusters of rock, makes for an excellent walk. Water sports equipment can be rented from a concession at the end of the beach.

*Located on the East End, off Route 322, which branches off Route 30 near Red Hook.*

### Shopping in St. Thomas

The multitudes of diverse stores that populate St. Thomas pay homage to the island's reputation as a shopping mecca. Since 1764, when St. Thomas was declared a free port, it has emerged as one of the most popular shopping destinations in the Caribbean, offering everything from jewelry, electronics, cameras, perfume, designer accessories and clothing to island crafts, local music, artwork, collectibles, books and fine spirits.

Many of the shops and boutiques in Charlotte Amalie are along Main Street, the Waterfront and in the numerous charming alleys, malls and passageways that connect the two main thoroughfares. Take time to browse through the various smaller shops and boutiques where you are sure to find unique treasures.

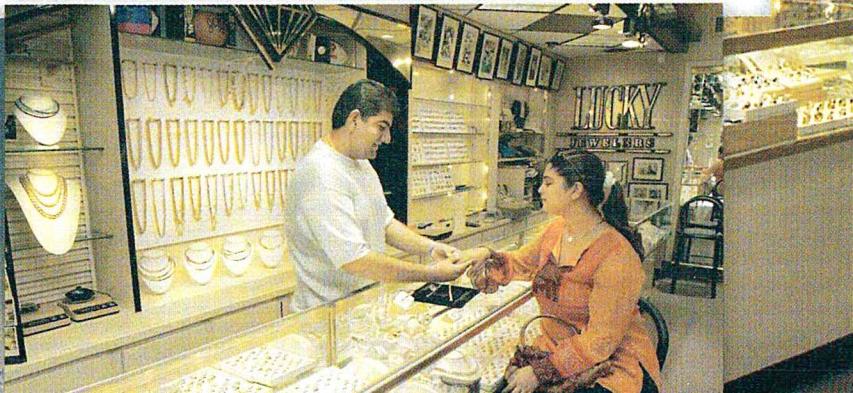

Other fabulous finds can be found at Havensight Mall, next to the cruise ship dock. This unique and relaxing mall is a one-stop destination with over 180 stores and businesses, many of which are branches of downtown stores. In one convenient area you will find the same duty-free shopping and low prices as Charlotte Amalie. Other shopping can be found at Port of Sale Mall, also near the cruise ship dock, and American Yacht Harbor in Red Hook. Many tourist attractions and hotels also have gift shops.

Wherever you choose to shop in the U.S. Virgin Islands, duty-free savings await you. In addition to no sales tax, visitors are allowed a duty-free quota of \$1,200. Stores are usually open Monday through Saturday from 9 a.m. to 5 p.m. During high season, if a cruise ship calls on a Sunday, some of the stores will open for at least half of the day.

Here are some of the best shopping choices on St. Thomas:

## Selecting Your Diamonds

The 4Cs determine the quality and value of a diamond and explain why some are more rare and valuable than others.

The better any diamond scores on each of these four characteristics, the more valuable it will be.

Color	Carat / Weight	Clarity	Cut
<u>Colorless</u> D E F	0.25 0.50 1.00	FL / IF	 Emerald
<u>Near Colorless</u> G H I J	1.25 1.50	VVS1 / VVS2	 Heart
<u>Faint Yellow</u> K L M	1.75 2.00	VVS1 / VVS2	 Marquise
<u>Very Light Yellow</u> N O P Q	2.25 2.50	SI1 / SI2	 Oval
<u>Light Yellow</u> R S T	2.75 3.00	I1	 Pear
<u>Yellow</u> U V		I2	 Princess
		I3	 Round

■ **Color:** Diamonds come in a variety of colors and are graded by their degree of color, shine and transparency. The scale will vary from the most precious colorless transparent to yellowish tones or tints. This in no way affects the quality of the diamond but is a question of personal taste.

■ **Carat / Weight:** All precious stones are expressed in weight. This determines size and is measured in carats. For example one carat is divided into 100 "points", 50 points are half of a carat or 0.50 carats. The chart shown here shows the approximate size of diamonds and their carat weights.

■ **Clarity:** Diamonds are the most brilliant gemstones. Rare, flawless, diamonds are virtually free of inclusions or surface markings. Inclusions exist in the majority of diamonds and are not visible to the naked eye, making each stone individually unique. This does not hinder their durability or beauty. The fewer the inclusions the more valuable the diamond will be.

■ **Cut:** The cut is the process that reflects the maximum amount of light back to the eye. Most diamonds have 58 carefully angled flat surfaces to bring out the maximum brilliance, fire and fascinating beauty of your diamond. Cut also refers to the diamond's shape.

# Island Weddings

## A TROPICAL FANTASY COME TRUE

The soft breezes, brilliant exotic flowers, serene seas and romance of the tropics lure thousands of couples to the Virgin Islands to say "I do". From an intimate seaside ceremony to a formal affair at an elegant resort, the perfect setting is waiting for you on St. Thomas, St. John or St. Croix.

As a U.S territory, you will find the U.S. Virgin Islands has few legal requirements, many stateside amenities and a bevy of professional wedding consultants ready to help plan your dream wedding. Many hotels and wedding consultant companies offer a wide variety of wedding or vow renewal packages, covering all the details and providing a memorable, hassle-free ceremony. Your wedding can be as extravagant or

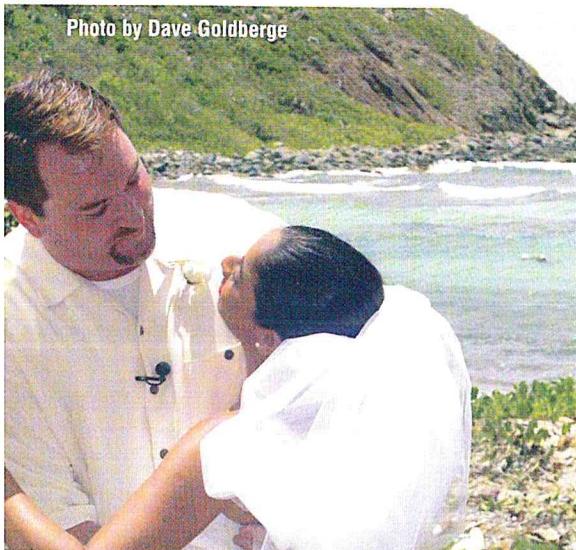

economical as you want, with packages starting as little as \$500.

With such an assortment of services available, your wedding can be tailored to your specific wishes. Whether in an elegant ballroom, barefoot on the beach, in a tropical garden, sailing the Caribbean waters or even under water, your fantasy can come true. Local priests, ministers and rabbis of many denominations can perform religious ceremonies either in houses of worship or the location of your choice.

Planning ahead is essential to meet the few legal requirements required by the U.S. Virgin Islands. First request an application for a marriage license from the Clerk of the Territorial Court of the Virgin Islands by phone, 340-774-6680,

ext. 6607, or by writing to P.O. Box 70, St. Thomas, USVI 00804. Once the application is filed and the \$50 fee paid, an eight-day waiting period is mandatory before the marriage can take place. No blood test is required. If you wish to be married by the court, there is an additional fee of \$200. You must include a letter of request and the additional \$200 fee with your license application, as a reservation is necessary. Court marriages are performed Monday through Friday only.

# Fun in the Sun

## Water Sports on St. Thomas, St. John and St. Croix

The pristine waters of the Virgin Islands are the perfect setting for a day of fun in the sun. With consistently temperate weather, offshore breezes and clear, balmy waters, it is no surprise that water sports are at the top of the list for outdoor enthusiasts. Whether it is the exciting world of diving, an exhilarating boat ride, the challenge of sport fishing, the thrill of parasailing or just a relaxing swim, the Virgin Islands will please any water sports aficionado.

## Beaches, Swimming & Our Waters

The natural beauty of the unspoiled waters surrounding our islands is a source of pride to Virgin Islanders and one we enjoy sharing with our guests. The crystal clear waters and gentle waves beckon you to dive right in! Enjoy a refreshing dip from your charter boat or at one of our many varied beaches, from the small, secluded coves to stretches of sand vibrating with activity. Take an

invigorating swim or leisurely wade in with a cool refreshing drink. While swimming at any of our beaches, take care to not leave valuables unattended. For more details on beaches and swimming, see "Beaches" under the St. Thomas, St. John and St. Croix sightseeing sections.

## Boating and Sailing

The Virgin Islands is a playground for those who love the water and want to spend part of their vacation on the high seas. With one of the largest commercial charter fleets in the Caribbean, the Virgin Islands has a boating excursion for all experience levels and schedules. Power and sailing boats are available as either bareboat or crewed charters.

Rent a private powerboat and explore the U.S. and British Virgin Islands. Go to the beach, stop to snorkel, lunch at a beachside café – you choose your own itinerary. Or sit back and relax as an experienced captain and crew take you on a scheduled trip. Choose a leisurely sunset cruise or a full- or half-day sail around the islands, with stops for snorkeling,

swimming and sightseeing. Navigating the azure waters throughout the U.S. and British Virgin Islands is easy and sure to be the highlight of your vacation.

## Diving and Snorkeling

Our crystal clear waters offer unparalleled visibility into the underwater world of multi-colored reefs and tropical marine life. Whether a novice snorkeler or an experienced diver, there are an abundance of easily accessible sights worth exploring. Equipment is readily available throughout the islands, as are classes and excursions from shore or by boat, including wreck dives and night dives.

## Fishing

The waters surrounding the Virgin Islands are some of the finest fishing grounds in the world. Poised on the edge of the Puerto Rico trench, the islands are home to some of the most challenging sport fish in the world, including blue and white marlin, wahoo, Allison tuna, dolphin and kingfish. The 33 world records that have been set in Virgin Islands' waters attest to the world-class fishing that we have to offer. Charters for full- and half-day deep-sea fishing expeditions are available.

## Parasailing

The thrill of soaring through the air at heights of up to 500 feet and the striking bird's-eye view of the green islands scattered throughout the turquoise waters make this high-flying sport a must do on your activities list. Parasailing can be booked through most hotels' activity desks.

## Windsurfing, Kiteboarding and Surfing

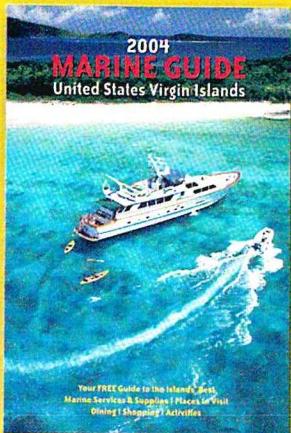

The steady trade winds make the Virgin Islands a paradise for windsurfers and kiteboarders. Windsurfing gear is available at most beachside resorts, as well as some beaches. Even with its growing popularity, kiteboarding equipment is a bit harder to find. Favorite spots for these sports are Sapphire Beach, Vessup Bay, Great Bay and Morning Star Beach in St. Thomas and the north shore of St. Croix by Divi Carina Bay.

Surfing is best in the winter months, when steady swells frequent the exposed sides of the islands, with waves between six to eight feet. For the best waves, surfers should head to Hull Bay on St. Thomas, Judith's Fancy on St. Croix, Reef Bay on St. John and Sprat Bay on Water Island.

# Flora & Fauna

After soaking up the tropical sun and basking in the glorious waters of the Virgin Islands, take a moment to admire the beauty on land. Tropical plants and flowers decorate the hillsides in a dazzling array of colors. Besides a source of beauty, many local plants provided food and medicine over the centuries. Of the over 1000 varieties of plants in the Virgin Islands today, most were transplanted from other lands on ocean currents, the wind, as stowaways on merchant ships or by slaves from Africa.

The more popular flowering varieties are the Bougainvillea, Frangipani, Oleander, Hibiscus, Flamboyant and the official flower of the U.S. Virgin Islands, the Yellow Cedar or Ginger Thomas.

Look for the Prickly Pear, Turks Cap, Night-Blooming and Pipe Organ cacti in the arid areas. Also abundant throughout the islands are the medicinal Aloe and the Century Plant.

The Mahogany and Sea Grape are popular shade trees, while the shady, but poisonous Manchineel should be avoided.

Stop by a local fruit stand to sample the abundance of treats born by the native fruit trees: bananas, genips, mangos, papaya, and tamarind.

Our tropical fauna encompasses a variety of mammals, birds, reptiles and

**Background photo of Ginger Thomas is the official flower of the Virgin Islands.** Photo by Don Hebert

marine life. Although some of the now feral animals were once domesticated and are easily recognizable, many of these unique creatures are a new sight to our visitors. Some of our favorites are:

The Iguana, an eye-catching lizard resembling a miniature dinosaur; the mongoose, brought to the islands during plantation days to control the rat population; the scarcely seen deer; wild or domesticated donkeys; goats; and bats, said to be the only native animal to the Virgin Islands.

Of the 171 varieties of birds that call the Virgin Islands home, you will most likely spot the Banana Quit, a small bird with a bright yellow chest known for liking sugar and our official territorial bird; a medley of brightly colored hummingbirds; the scavenging seagull; and diving pelicans. Look for one of the many birds that fly to the tropics to spend winter, such as herons, terns, boobies and frigate birds.

An entirely different world teeming with life lies underneath the sea. Varying assortments of coral and reef fish bring a kaleidoscope of color to the underwater world. Other notable marine life include the hawksbill, leatherback and green turtles and the humpback whale, often seen in the winter and spring in their migration from North American waters.

# Inland Adventures

Dynamic scenery, superb settings and stunning views make heading inland worth your while. The sportsman in you will find plenty to keep busy with all the exciting and prestigious land-based sports our islands have to offer.

## Biking

Biking is a fun and healthy way to explore Water Island. Guided bike tours are available from Water Island Adventures. The half-day trip begins at the highest point on the island and travels around hillsides, to WWII forts and down to beautiful Honeymoon Beach.

## Bowling

Bowling is always fun for the family. On St. Thomas, the V.I. Christian Ministries offers a traditional bowling experience with state-of-the-art facilities and arcade games, pool tables, toddler room and full service kitchen.

Tropical Ten Pins on St. Croix brings disco to the island on Friday nights with Disco Bowling. The disco ball flashing to the beat of disco music and glow-in-the-dark pins add a fun twist to an old favorite.

## Golf

Golfers won't be able to resist the many prestigious and challenging golf courses throughout the Virgin Islands. St. Thomas claims the Virgin Islands' premier golf course, Mahogany Run. Perched along the north coast of St. Thomas, this 6,022-yard, par-70, Fazio-designed course is home to the famed Devil's Triangle, a trio of holes suspended along the cliffs above the surf of

the Atlantic Ocean. The unparalleled ocean views and tropical valleys make it a challenge to keep your mind on your game. Also on St. Thomas, the University of the Virgin Islands offers a free nine-hole course.

For those looking to put in a little virtual practice, Cruz Bay Golf at Pastory Gardens in St. John has an 18-hole executive putting course and virtual reality golf with 32 of the top PGA courses.

The three courses on St. Croix are all worth a visit. The magnificent course at Carambola Golf Club is a 6,856-yard, par-72 course, designed by the famed architect Robert Trent Jones, Sr., featuring many challenging uphill and over-water shots. The hills of the Buccaneer Golf Course curve past the ocean on this first-rate 6,268-yard, par-71 course. For a fun, nine-hole course, head to the Reef Golf Course and soak up the scenic views of the ocean and Buck Island.

## Hiking

St. John has 20 hiking trails maintained by the Virgin Islands National Park. With varying levels of difficulty, there is a trail for everyone from the adventurous to the novice hiker. Stop by the Visitor's Center in Cruz Bay to pick-up a trail guide and learn more about guided hikes.

St. Croix has a multitude of hiking trails through historic ruins on the West End, the tropical forest at Caledonia and at Salt River National Park. Whether you want to trek out on your own or join the St. Croix Environmental Association for a group hike, St. Croix's varied terrain offers up flora and fauna

you would never see from the roadside.

### Horseback Riding

The Carolina Corral in St. John accompanies you along scenic mountain trails on horse or donkey. Select from mountain trails, beach rides or a flat-ground ride for children or the less adventurous.

Horseback riding on St. Croix takes you on unspoiled trails along beaches or through the tropical forest. Choose from two stables: Paul & Jill's Equestrian Stables in Frederiksted or Equus Rides on the North Shore.

### Paintball

Experience the rush of an extreme adventure in the tropical "jungle" of St. Thomas with an interactive game of Paintball. This fast paced game of strategy and marksmanship is sure to add an element of adventure to your vacation. Test your skill at Jungle Paintball Adventures in St. Thomas.

### Tennis

On all the islands, tennis courts at most hotels require reasonable guest fees. Check at the individual pro shops for

rates, available lessons and whether the courts are equipped for night play. St. Thomas and St. John have free public courts on a first-come, first-served basis. The public courts are located at Sub Base, in St. Thomas and near the Cruz Bay fire station in St. John.

### Spas

After a hard day of physical activity you deserve a relaxing day at the spa. Many offer traditional spa treatments using local island ingredients making it a unique island experience. Most spas offer a variety of massages, body wraps, facials, aromatherapy, hydrotherapy, salon services, relaxation lounges and more. Many hotels offer spa and salon services. Contact the concierge at your hotel for more information.

# Carnival: A Cultural Celebration

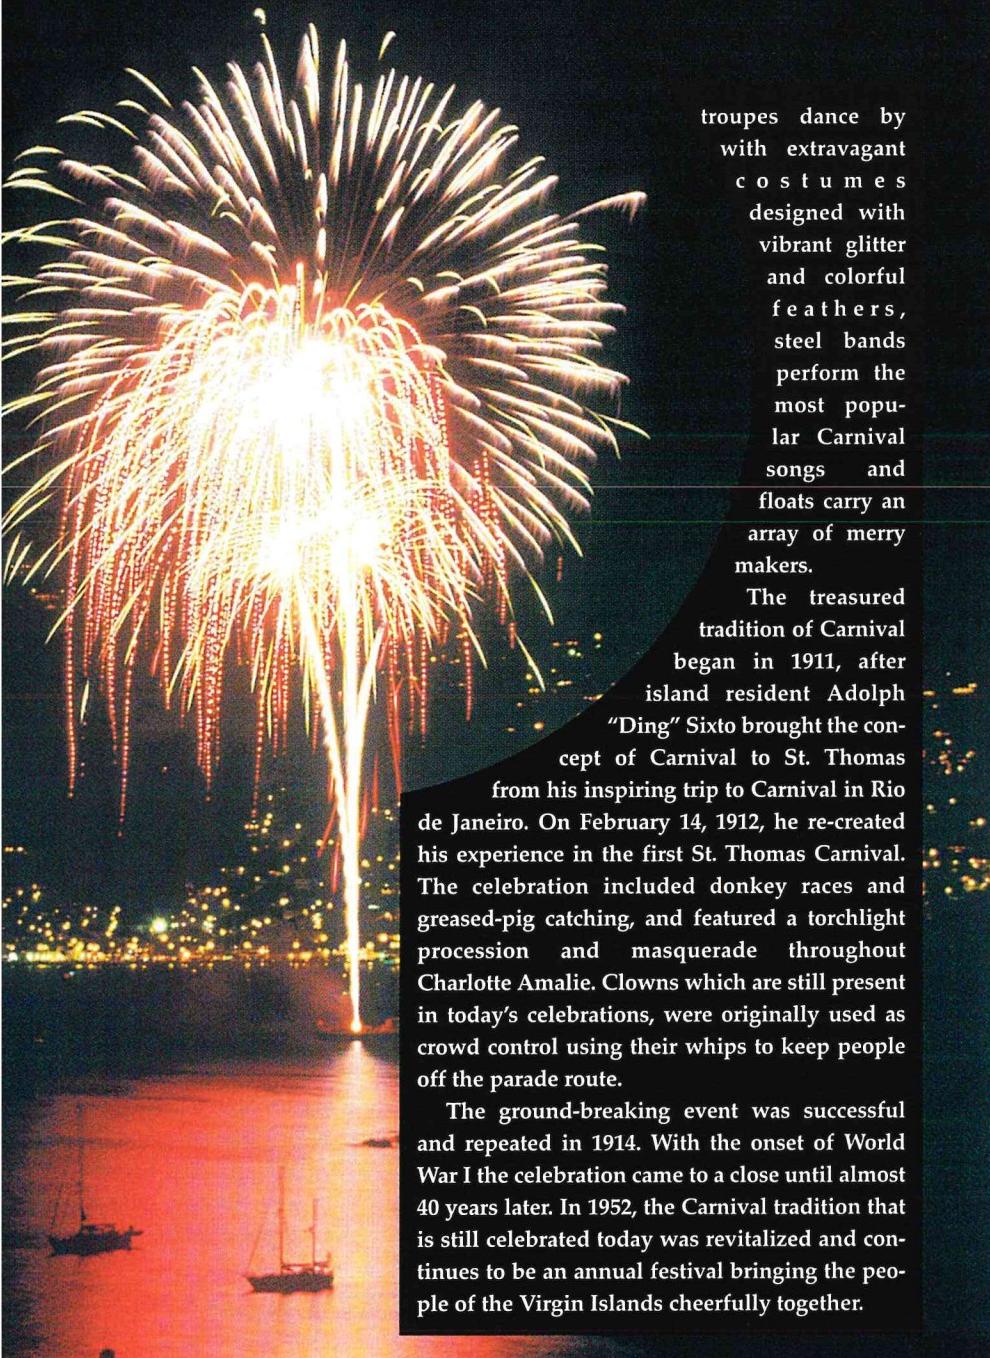

Photo by Don Hebert

**I**magine a month of revelry and jubilation where all inhibitions are abandoned and the celebration of life is at the core of all the action. There's no need to imagine – that's Carnival time in St. Thomas! Every April, locals and visitors alike celebrate Carnival, the most anticipated cultural event of the year. Pulsating rhythms, a kaleidoscope of color and the aroma of local fare transform the town of Charlotte Amalie into a stage for a high-energy fete unlike no other in the Virgin Islands.

Caribbean culture permeates the events and shows of the month-long festival. Crowds are enchanted by the controversial rhymes at the Calypso Review, the savory local delicacies of the Food Fair, the sparkle of tiaras at the Prince and Princess, and King and Queen coronations, the mesmerizing beat of the steel pan competition and the sultry rhythms of Latin Night. At the heart of it all is Carnival Village, a cornucopia of brightly painted booths offering traditional food and drink, a stage for nightly performances, and carnival rides and games for the children and all the kids at heart.

The numerous and varied performances throughout the month all lead to the culmination of the celebration - the last three days of Carnival. J'ouvert begins in the pre-dawn hours of Thursday morning. Masses of revelers dance through the streets following the islands' most popular bands as they are pulled on flatbed trucks with their music exploding through a mass of speakers. Friday brings the Children's Parade, a delightful procession of young majorettes, troupes, bands and Mocko Jumbies all in sparkling, multicolored costumes. The climax of the celebration is on Saturday when thousands of onlookers line Main Street to view the dazzling grandeur of the Adult Parade. Carnival royalty wave to the crowds,

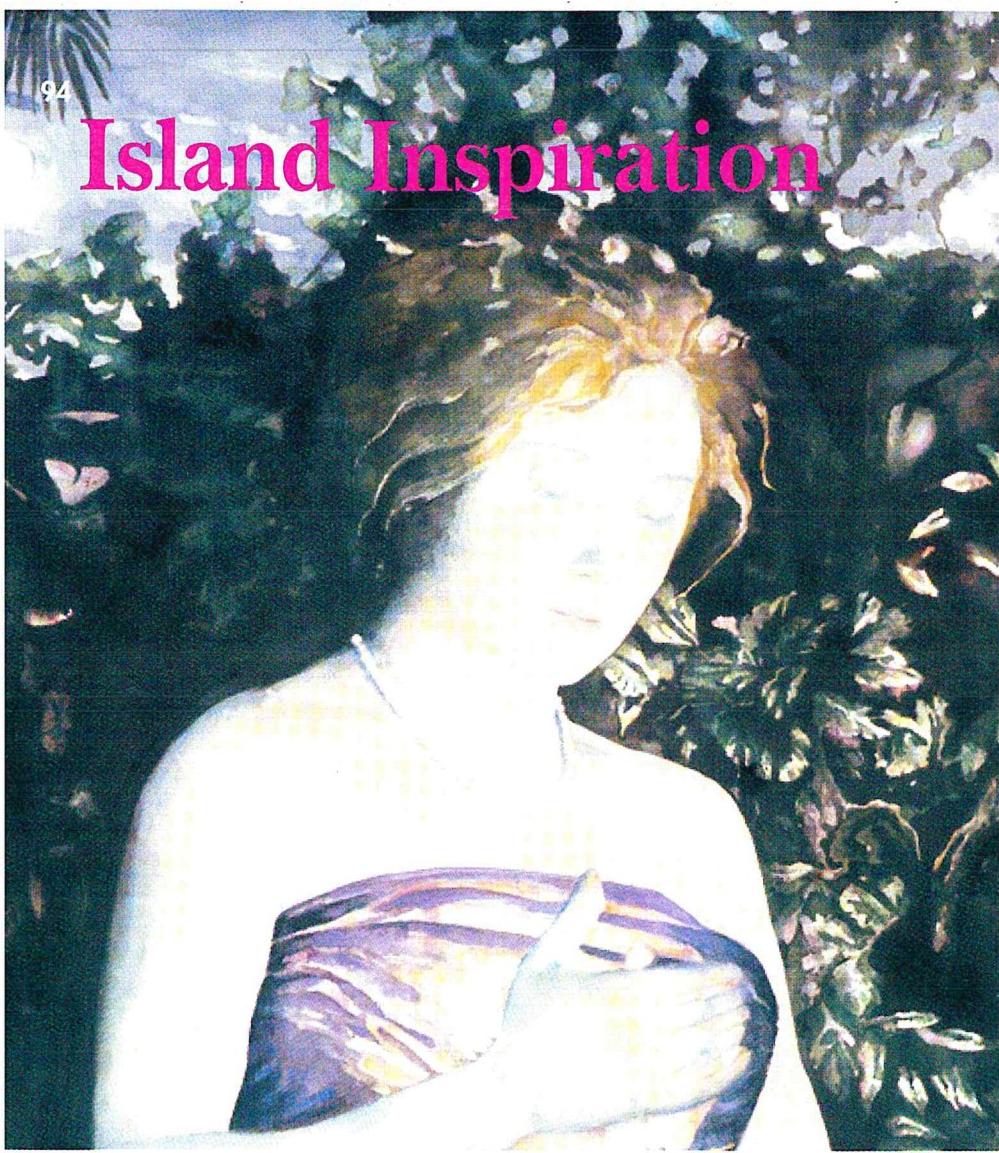

troupes dance by  
with extravagant  
costumes  
designed with  
vibrant glitter  
and colorful  
feathers,  
steel bands  
perform the  
most popular  
Carnival  
songs and  
floats carry an  
array of merry  
makers.

The treasured tradition of Carnival began in 1911, after island resident Adolph "Ding" Sixto brought the concept of Carnival to St. Thomas from his inspiring trip to Carnival in Rio de Janeiro. On February 14, 1912, he re-created his experience in the first St. Thomas Carnival. The celebration included donkey races and greased-pig catching, and featured a torchlight procession and masquerade throughout Charlotte Amalie. Clowns which are still present in today's celebrations, were originally used as crowd control using their whips to keep people off the parade route.

The ground-breaking event was successful and repeated in 1914. With the onset of World War I the celebration came to a close until almost 40 years later. In 1952, the Carnival tradition that is still celebrated today was revitalized and continues to be an annual festival bringing the people of the Virgin Islands cheerfully together.

## The Arts in the Virgin Islands

Inspired by the natural beauty surrounding them every day, Virgin Islands' artists honor the climate and culture of the islands with the finest in visual and performing arts.

A medley of island galleries exhibit exotic pieces in a variety of mediums including oil and watercolor paintings, etchings, ceramics, sculptures, carvings

and pottery. Any one of these artistic works would be a superb momento of your visit to the Virgin Islands.

The performing arts have a lively local following and invite visitors to join us in the celebration of the arts. The islands' theaters, open-air amphitheaters, and cultural centers feature music, dance, comedy and theater.

# History of the Steel Pan

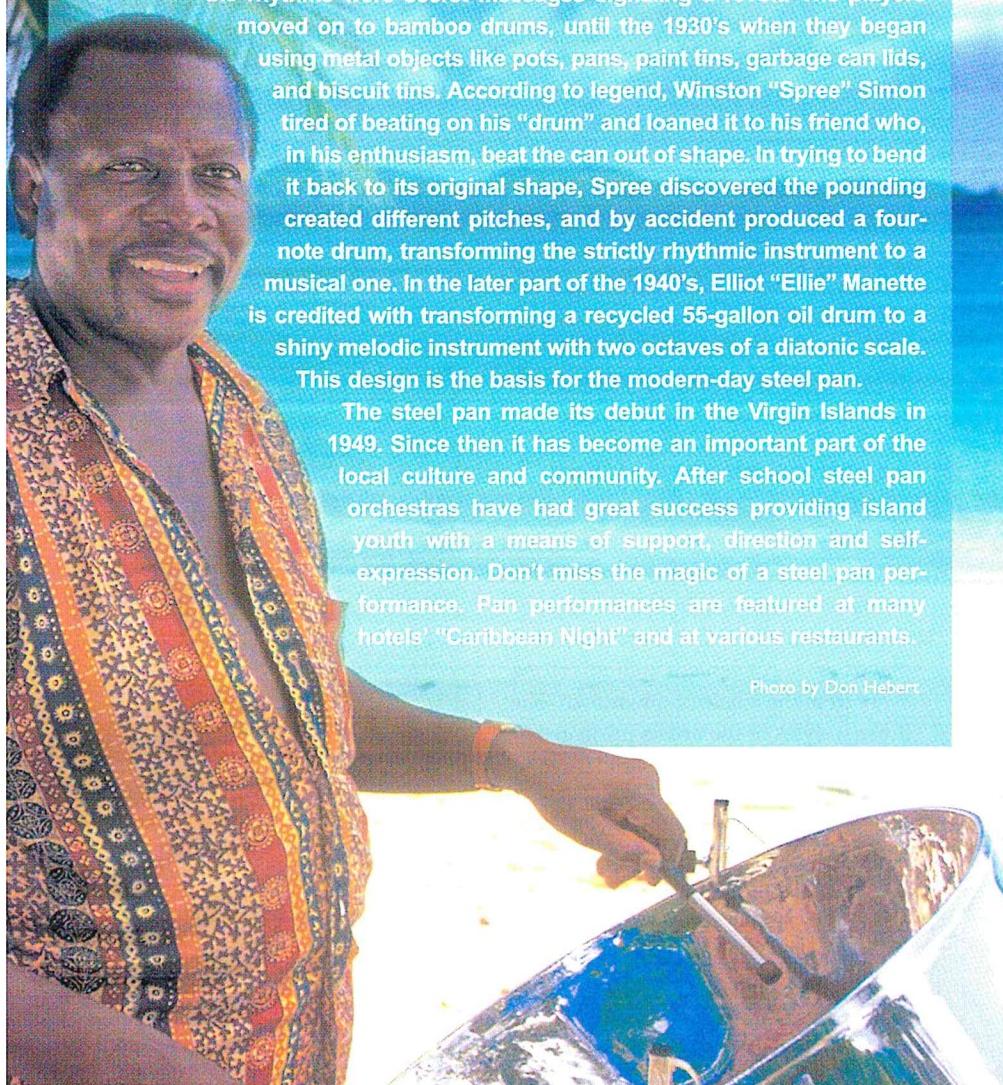

Of the many enchanting sounds of the Virgin Islands, none is as quintessentially Caribbean as the mellow beat of the steel pan. As you drift in and out of the rhythms, you may wonder, where did the magical pure sounds of the steel pan come from?

The steel pan claims Trinidad as its birthplace. Evolving from the African tradition of drumming, the instrument's roots are in the Trinidadian rhythm bands. The players initially beat skin drums until outlawed by the colonists for fear that the rhythms were secret messages signaling a revolt. The players moved on to bamboo drums, until the 1930's when they began using metal objects like pots, pans, paint tins, garbage can lids, and biscuit tins. According to legend, Winston "Spree" Simon tired of beating on his "drum" and loaned it to his friend who, in his enthusiasm, beat the can out of shape. In trying to bend it back to its original shape, Spree discovered the pounding created different pitches, and by accident produced a four-note drum, transforming the strictly rhythmic instrument to a musical one. In the later part of the 1940's, Elliot "Ellie" Manette is credited with transforming a recycled 55-gallon oil drum to a shiny melodic instrument with two octaves of a diatonic scale.

This design is the basis for the modern-day steel pan.

The steel pan made its debut in the Virgin Islands in 1949. Since then it has become an important part of the local culture and community. After school steel pan orchestras have had great success providing island youth with a means of support, direction and self-expression. Don't miss the magic of a steel pan performance. Pan performances are featured at many hotels' "Caribbean Night" and at various restaurants.

# St. John: We Be Limin'

Only three miles and a short ferry ride from St. Thomas and yet a world away. St. John's unspoiled natural beauty and its laid-back atmosphere rank it as one of the most charming and peaceful getaways in the Caribbean. Philanthropist and visionary Laurance Rockefeller established the National Park, which encompasses two-thirds of the island, in 1956. St. John has since remained mostly untouched and serene offering stunning white sand beaches, protected bays, scenic roads, tropical forests, lush trails and historic ruins.

**CRUZ BAY** • Cruz Bay, fondly referred to as "Love City", rests in colorful Cruz Bay harbor on the West End of St. John. This delightful town is home to a diverse

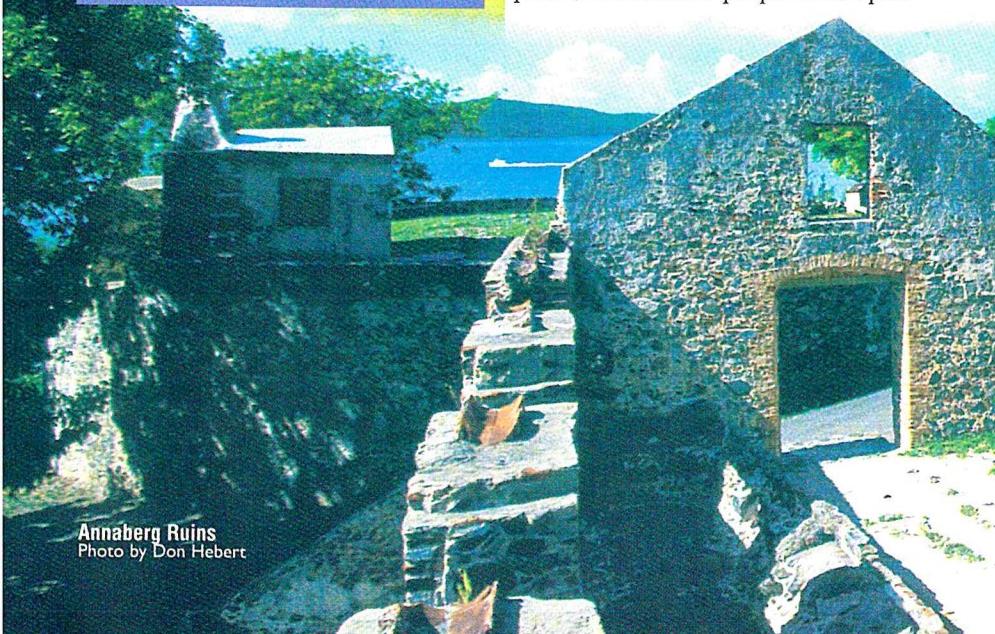

assortment of unique shops, galleries and restaurants scattered among the quaint streets and walkways. The shady public square, straight ahead from the ferry dock, is a popular place where many rest under the shade trees. It is also where numerous arts & crafts shows and events are centered.

## NATIONAL PARK VISITORS CEN-

**TER** • Be sure to stop at the National Park Visitors Center just north of the ferry dock in Cruz Bay. With two-thirds of the island being National Park you can't help but take part in one of their activities or explore some aspect of parkland. The featured exhibits highlight the interpretive themes of the park including natural and cultural history. Park rangers are on-duty to answer your questions about weekly programs, the park, the island and its diverse plants, animals and people. Park spon-

sored activities include guided hikes, snorkeling tours, history programs and nature talks.

**ELAINE IONE SPRAUVE LIBRARY AND MUSEUM** • Just a short drive uphill from Cruz Bay is the Elaine Ione Sprauve Library and Museum. Formerly an Estate dating back to the 1700's, the site is now home to a library and a museum housing an assortment of documents, historic artifacts and a large collection of archaeological photographs relating to various topics on St. John. The site was admitted to the National Register of Historic Places on

July 1, 1976.

#### **REEF BAY TRAIL AND PETRO-**

**GLYPHS** • This popular 2.2 mile trail descends 937 feet from Centerline Road to the Reef Bay Valley, ending at the Reef Bay sugar factory near Genti Bay beach. Your hike will take you through tropical forest to cactus woodland then on to the shore of a beautiful sandy beach nestled in a protected bay. Throughout the trail are signposts identifying plant life, sugar mill ruins and points of interest. A side trail leads to the mysterious petroglyphs: pictures and symbols carved in the rock beside a freshwater pool. The

National Park offers a ranger-guided hike several days each week including boat transportation from the beach to Cruz Bay. Advance reservations are required for this hike.

**ANNA BERG SUGAR MILL** • Established in 1718, Annaberg Sugar Mill is one of St. John's best-preserved examples of the island's cultural past during the colonial and post-emancipation era. Self-guided and ranger-guided tours take visitors through the sugar factory ruins and provide spectacular views of the British Virgin Islands. A small park entrance fee is collected.

**CORAL BAY** • In 1718, a fort was constructed in Coral Bay, one of the safest harbors in the Caribbean, and the first permanent settlement in St. John was established at Estate Carolina in Coral Bay. Since then not much growth has taken place and the locals like it that way. This funky little village on the East End of the island truly epitomizes St. John's laid-back attitude. Several bars and restaurants serve up lunch and dinner and there are also a few small shops in the area. It is a great place to stop for a rum cocktail and a "Cheeseburger in Paradise".

**BORDEAUX MOUNTAIN** • Bordeaux Mountain is the highest peak on St. John rising to 1,277 feet. Stop at the overlook off Centerline Road for breathtaking views down into the harbor of Coral Bay, out to the eastern British Virgin Islands and the surrounding sea.

## WORLD-CLASS BEACHES

The stunning beaches on St. John's shores are some of the best in the world.

Whether you choose an intimate, secluded bay or one of the more popular beaches you will never forget the feel of the soft sand between your toes or the gentle waves washing over you.

**CINNAMON BAY** • Cinnamon Bay beach is the National Park's longest beach at one mile long and home to the Cinnamon Bay campground. Many services are available to beach goers, including an activity desk, toilets, changing areas, showers, telephones, restaurant, general store, and beach shop. An Old Danish Warehouse sets beachside and currently serves as a laboratory for a National Park Service archaeological excavation. Across the road from the campground are Danish plantation ruins and a self-guiding trail that travels past old graves and signposts identifying plant life.

*Located off Northshore Road in the National Park.*

**FRANCIS BAY** • The calm waters of Francis Bay make this a fantastic swimming beach and a great snorkel spot. As it is one of the longest beaches on St. John it's easy to find a secluded spot to call your own. The trail behind the beach winds around a salt pond and is a natural habitat for many species of birds.

*Located in the National Park. Take Northshore Road, head towards Annaberg Sugar Mill. Take left at dead end.*

**GREAT CRUZ BAY** • Located at the Westin Resort, the palm-lined beach at Great Cruz Bay offers comfort and a multitude of amenities at your fingertips. Visit the pool bar for a refreshing drink and settle in on a lounge chair under an umbrella or partake in one of the many water sports activities avail-

able. Although all beaches in the Virgin Islands are open to the public, those on hotel properties may charge a small fee to use their amenities.

*Located on the Southwest side of the island at the Westin Resort.*

**HAWKSNEST** • Hugging the shore of this beautiful white sand beach are a lush stand of sea grape and palm trees providing a shady canopy for relief from the Caribbean sun. This smaller and quieter beach has a nearby reef abundant with marine life making it a superb spot for snorkeling. Facilities include a large parking lot, two picnic pavilions, picnic tables, charcoal grills, toilets and changing areas.

*Located off Northshore Road in the National Park.*

**HONEYMOON BEACH & SOLO-MAN BAY** • Two heavenly beaches with sparkling white sand and crystal clear waters separated by a rocky outcropping. The abundance of fish makes snorkeling around the rocks delightful. These beaches are only accessible by water or a short hiking trail beginning besides the National Park Visitors Center in Cruz Bay.

*Located on the Northwest side of the island. Accessible only by water or hiking trail.*

**LEINSTER BAY** • This Bay is situated below Annaberg Sugar Mill. This pebbly beach is great for exploring. Hunt for shells and coral washed up on the beach or search the mangrove covered shoreline for feral donkeys peeking out through the branches. A walk to the end of the beach will reward you with a small sandy area. Spectacular snorkeling is found off Waterlemon Cay, the small cay at the far end of the beach. During breeding sea-

son, starfish cover the sandy bottom near the cay.

*Located in the National Park. Take Northshore Road to the Annaberg Sugar Mill.*

**MAHO BAY** • Nestle in to your own little spot along this long stretch of white sand. The tranquil, shallow waters make it a perfect swimming beach and home to turtles and rays, which are often spotted in this sheltered bay. The beach is easily accessible from roadside parking. Although roadside parking is limited, the easy access makes it a perfect spot for a quick swim.

*Located off Northshore Road in the National Park.*

**SALT POND BAY** • A secluded and “off-the-beaten path” natural beach with amazingly clear waters that offer superb snorkeling. To reach this beautiful beach you take a short hike down hill from the parking lot. You can continue hiking around a nearby salt pond toward the ocean.

*Located off Route 107 on the Southeast end of the island.*

**TRUNK BAY** • The long stretch of dazzling white sand and gorgeous waters make Trunk Bay one of the most photographed and most visited beaches in the Virgin Islands. If you are adverse to crowds, visit early or late in the day to enjoy the famed underwater snorkel trail. The self-guiding underwater plaques identify fish and coral. Lifeguards are on duty daily. Facilities include a gift shop, snorkel rental, snack bar, showers, toilets, changing areas, telephones and a picnic pavilion. A small park entrance fee is collected.

## The Wonders of Nature at the Virgin Islands National Park

Photo by  
Don Hebert

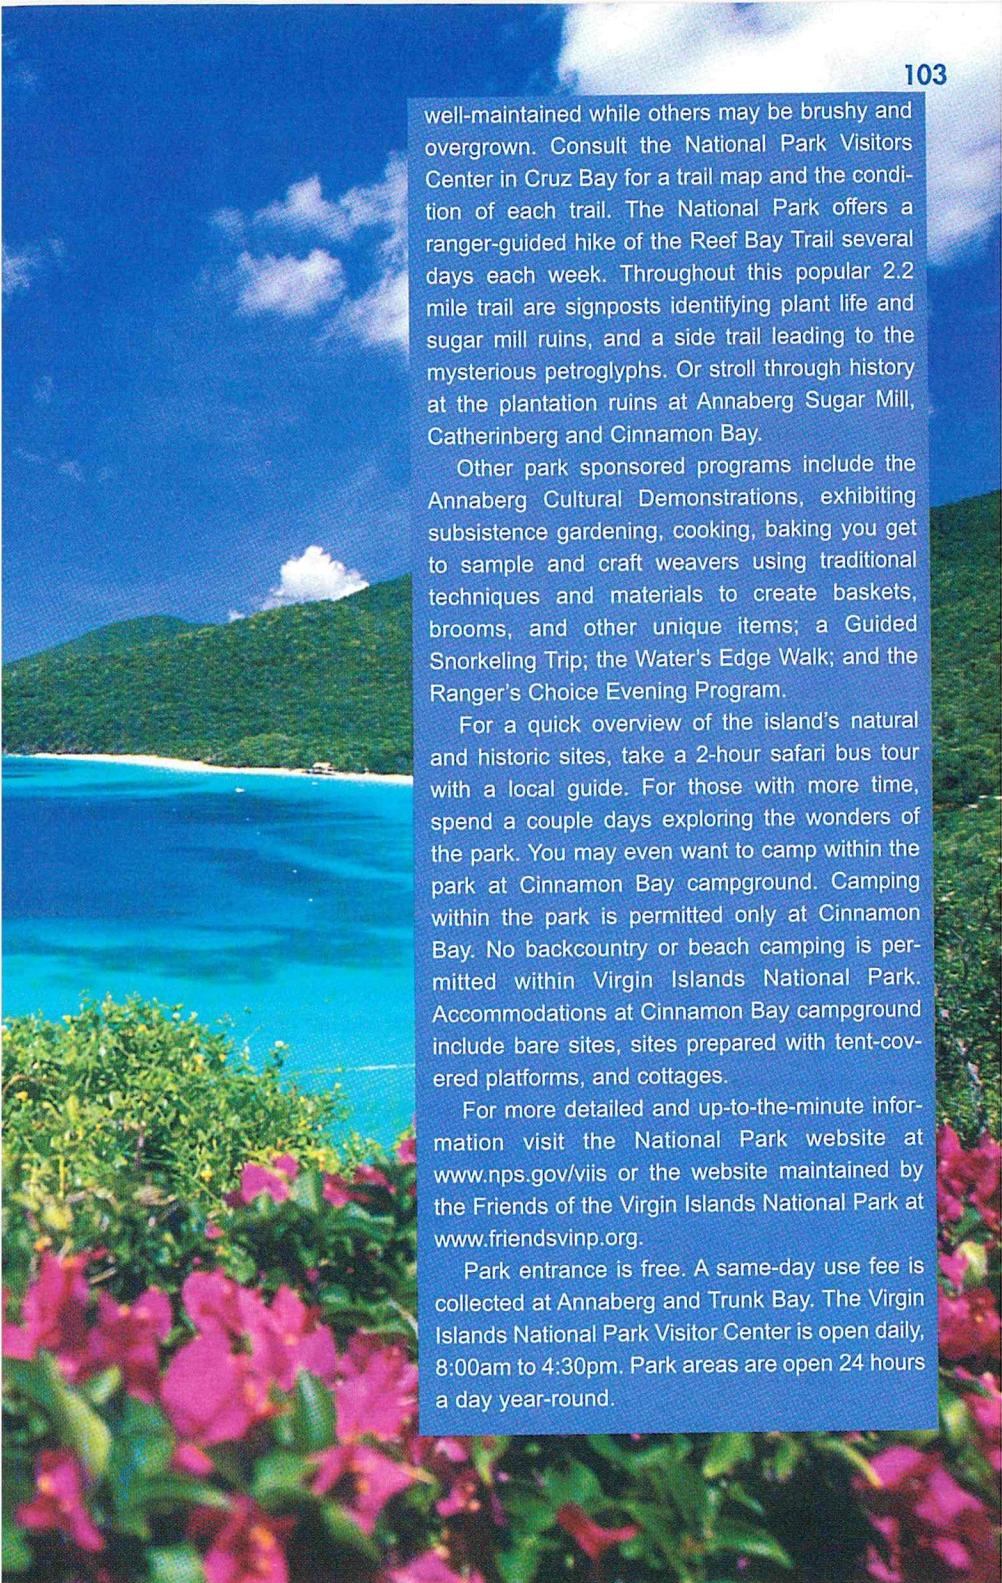

Renowned for its breathtaking beauty, the Virgin Islands National Park covers approximately two-thirds of St. John. In 1956, Laurance Rockefeller purchased land and transferred it to the Federal Government to be designated a national park. In 1962, boundaries were enlarged to include 5,650 acres of submerged lands.

Within the park's borders lie picturesque beaches, sheltered coves, coral reefs abundant with colorful fish, and diverse forests from the moist sub-tropical woods of the interior mountains to the semi-arid cactus scrublands on the south-facing slopes and rocky, wind-swept peninsulas. This protected environment is the habitat for over 800 species of trees, shrubs, flowers and other plants and the breeding ground for more than 30 species of tropical birds. During the winter months especially, excellent bird watching is found at the Francis Bay Trail and Salt Pond.

In addition to the park's natural resources, a rich, cultural history is preserved in relics from the Pre-Colombian Amerindian civilization, remains of the Danish Colonial sugar plantations and reminders of African slavery. To fully appreciate all the park has to offer, make the National Park Visitors Center in Cruz Bay one of your first stops. The featured exhibits highlight the interpretive themes of the park including natural and cultural history. Park rangers are on-duty to answer your questions about weekly programs, the park, the island and its diverse plants, animals and people.

For hikers and explorers, there are over 20 miles of park trails ranging from easy walks to difficult climbs. Some of the 20 different trails are

well-maintained while others may be brushy and overgrown. Consult the National Park Visitors Center in Cruz Bay for a trail map and the condition of each trail. The National Park offers a ranger-guided hike of the Reef Bay Trail several days each week. Throughout this popular 2.2 mile trail are signposts identifying plant life and sugar mill ruins, and a side trail leading to the mysterious petroglyphs. Or stroll through history at the plantation ruins at Annaberg Sugar Mill, Catherinberg and Cinnamon Bay.

Other park sponsored programs include the Annaberg Cultural Demonstrations, exhibiting subsistence gardening, cooking, baking you get to sample and craft weavers using traditional techniques and materials to create baskets, brooms, and other unique items; a Guided Snorkeling Trip; the Water's Edge Walk; and the Ranger's Choice Evening Program.

For a quick overview of the island's natural and historic sites, take a 2-hour safari bus tour with a local guide. For those with more time, spend a couple days exploring the wonders of the park. You may even want to camp within the park at Cinnamon Bay campground. Camping within the park is permitted only at Cinnamon Bay. No backcountry or beach camping is permitted within Virgin Islands National Park. Accommodations at Cinnamon Bay campground include bare sites, sites prepared with tent-covered platforms, and cottages.

For more detailed and up-to-the-minute information visit the National Park website at [www.nps.gov/viis](http://www.nps.gov/viis) or the website maintained by the Friends of the Virgin Islands National Park at [www.friendsvinp.org](http://www.friendsvinp.org).

Park entrance is free. A same-day use fee is collected at Annaberg and Trunk Bay. The Virgin Islands National Park Visitor Center is open daily, 8:00am to 4:30pm. Park areas are open 24 hours a day year-round.

Expect to see wild goats and an occasional wild donkey in an abundance of flowering plants and trees. Or choose a flat-ground ride for young children and the less intrepid. The ride to the beach follows scenic mountain trails that offer great photo opportunities. Both experienced and first-time riders are welcomed with instruction provided to ensure a pleasurable ride.

**SHOPPING ON ST. JOHN**

Creativity abounds in St. John and it is reflected in the unique selection of shops, boutiques and galleries that await you. Its tranquil environment attracts artistic souls and inspires the exquisite artworks prevalent throughout St. John. Whichever little shop you choose to wander in to you'll be delighted by the eclectic choice of creative gifts, jewelry, fragrances, artwork, home décor, keepsakes, clothing and accessories.

Meander through the few blocks of narrow streets and walkways in Cruz Bay to discover many specialty shops tucked away in colorful buildings. Don't miss the new shops at the Raintree Court and on Bay Street. On opposite edges of Cruz Bay are two shopping centers, Mongoose Junction and Wharfside Village.

Mongoose Junction's sprawling stone buildings are enveloped by tropical foliage and filled with fine shopping, restaurants and cafes. You can spend a good part of your day visiting stores specializing in art, clothing, gifts and jewelry, while sipping on a tropical concoction from one of the cafes.

Near the ferry dock you will find Wharfside Village, a center with attractive shops that showcase fashions, original jewelry, home décor and gifts with a tropical flair. Shoppers can relax with a cool drink at one of the bars or restaurants.

Outside of Cruz Bay, delightful shopping can be found at The Marketplace at Enighted, Bordeaux Mountain and Coral Bay. Wherever you choose to shop remember that your duty-free savings extend to St.

# Festival of Fun!

The pulsing musical rhythms, the enticing smells of local specialties, and the whirl of colorful costumes enliven your senses. All of St. John comes alive for Festival!

St. John Festival, a long-standing tradition of celebrating the island's culture and commemorating the emancipation of slaves in 1848, is St. John's version of Carnival. Though not officially celebrated until 1928, the origins of the St. John Festival took root in plantation times. The holiday

was devised by plantation owners as a way to pacify the slaves, hoping the celebration would make the slaves happier and work harder. As part of the festival, the slaves would mimic their masters through costumes, song and dance.

Today's festivities include Festival Village, where you will enjoy the best of local music and island food, Cultural Day, J'Ouvert, a pre-dawn dance through the streets, the Festival Parade and fireworks. The 30-day festival begins in early June and closes with a July 4th celebration of fireworks and final reveling in the Festival Village. St. Johnians encourage you to join in on the fun of Festival!

# St. Croix: All is Irie

Photos by Don Hebert

Sugar mill ruins and remnants of old plantation walls lie scattered throughout St. Croix reminding visitors of the time when sugar cane production ruled the island. These historic reminders rest throughout the dynamic, sprawling landscape of St. Croix, from its verdant tropical forests on the west end to the grassy plains to the north to the dry and rocky east end. St. Croix's varied landscape offers intrigue and ensures sightings of historic ruins, stunning views, secluded beaches and friendly locals ready to make your visit to the "Big

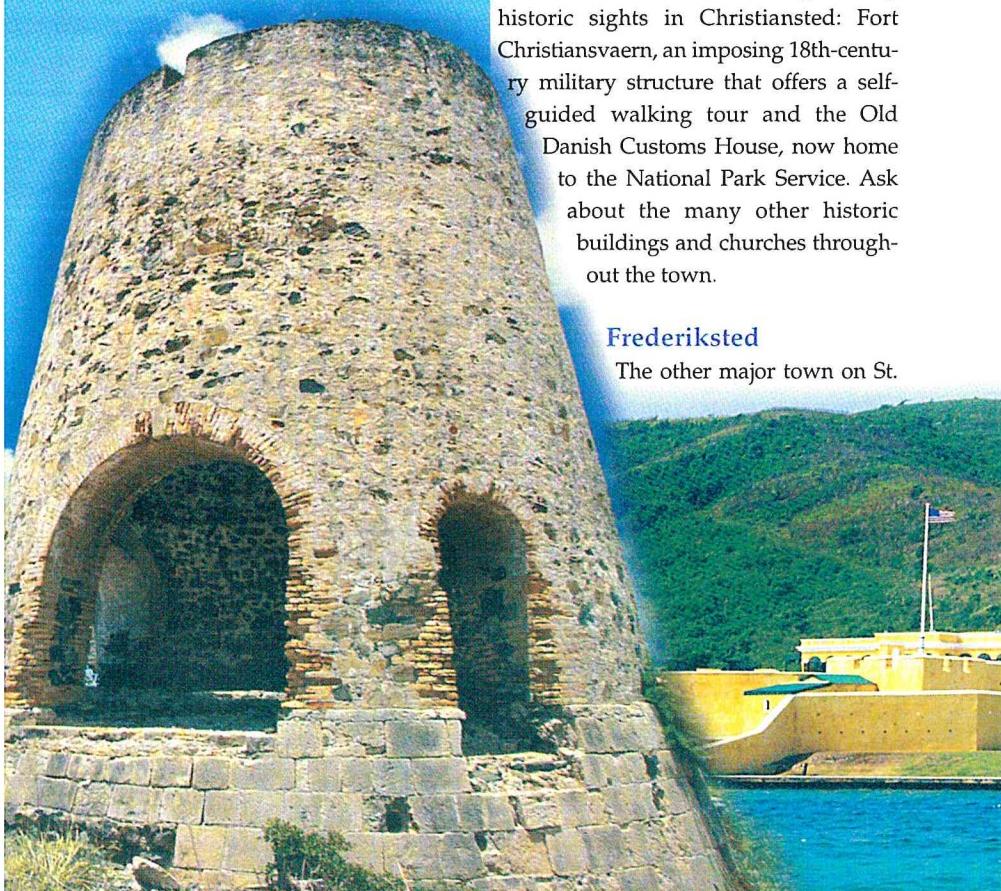

Island" an adventure.

## Christiansted

Begin your exploration of St. Croix, the largest of the U.S. Virgin Islands, in the harbor town of Christiansted on the north shore. Stroll along the waterfront boardwalk to the narrow streets and alleyways leading to charming courtyards filled with shops and restaurants. Stop by the Visitors' Bureau, at the corner of Queen Cross and Company streets, for maps and information guiding you to the treasures of St. Croix, including two key historic sights in Christiansted: Fort Christiansvaern, an imposing 18th-century military structure that offers a self-guided walking tour and the Old Danish Customs House, now home to the National Park Service. Ask about the many other historic buildings and churches throughout the town.

## Frederiksted

The other major town on St.

Croix is Frederiksted, located on the west coast of the island. Walk out on the pier for a fine view of the town's historic waterfront buildings. Fort Frederik, at the north end of town, is an excellent example of Danish military architecture and houses a local history museum.

### Island Wide Sights

Outside of the town areas there is much to be discovered. Scenic roads take you through the tropical rain forest of the west end on to the striking views of the north shore. Off the main and oldest thoroughfare, Queen Mary Highway, also known as Centerline Road, you will find The Estate Whim Plantation Museum, a National Historic Site, offering insight into the workings of an 18th-century sugarcane plantation, and the St. George Village Botanical Garden. The Botanical Gardens' self-guided walking tour takes you through more than 1,000 species of tropical flora. Other sites of interest include the Cruzan Rum Distillery, the Carl and Marie Lawaetz Museum, Buck Island Reef National Monument, and Point Udall, the easternmost point in the U.S.

### Miles of Unspoiled Beaches

The miles of shoreline on St. Croix promise an excess of unspoiled beaches offering snorkeling, swimming, diving, picnicking, exploration and relaxation.

## Shopping on St. Croix

The 18th and 19th century West Indian townhouses and historic buildings that house many of the shops on St. Croix make for an unforgettable Caribbean shopping experience. From fine jewelry, fashions, fragrances, home décor and one-of-a kind islands wares, the numerous fine shops carry a diverse array of items sure to appeal to every shopper.

Many shops line King, Company and Strand streets, the main thoroughfares of downtown Christiansted, considered the center of shopping on St. Croix. Stroll through the quaint courtyards and shaded arcades that branch off the main streets to discover distinctive boutiques where you are bound to find a unique keepsake of your island stay. More shopping awaits you just east of Christiansted at Gallows Bay Marketplace, where you'll find gift shops, a bookstore and other appealing shops.

On the west side of the island, Frederiksted offers an unhurried shopping experience, while shopping centers throughout the island offer stores akin to mainland shopping. Many tourist

attractions and hotels also have gift shops. Wherever you choose to shop, duty-free savings await you on St. Croix. In addition to no sales tax, visitors are allowed a duty-free quota of \$1,200.

We also carry Naot sandals, model ships, windchimes, tropical metal art and sealife sculptures. Souvenirs, island sauces and rum balls are all "must haves" on your shopping list.

# The Crucian Festival

Photos by Diane Butler

Similar to the Carnivals of the Caribbean, St. Croix's Crucian Festival is a time of celebration and merriment. The grand, vibrant costumes, mouth-watering local delicacies and pulsing island rhythms are irresistible to locals and visitors alike.

The festival began in December of 1952 when the Women's League of Frederiksted and Christiansted planned for the return of the "Old Fashioned Christmas." A week long fête was planned and given the name "Old-Fashioned Christmas Festival". Celebrations included two parades, one in Christiansted and one in Frederiksted.

Since that time many events and shows have been added to the festival including Festival Village, Food Fair, Festival Queen, Prince and Princess, Calypso, Reggae and Steel Pan shows, horse races, King and Queen of the Bands, tramps, Cultural Night, Latin Night, J'Ouvert, fireworks and much more.

The party begins the week before Christmas and continues through Three Kings Day, with entertainment and events daily. Join the local Crucians in the fun and revelry of the Crucian Festival!

# A Taste of the Virgin Islands

**A** tradition in St. Croix for more than three decades, the USVI Agricultural and Food Fair festivities have continued to prosper each year since its inception. This family oriented, multicultural event involves the community in supporting the local agricultural industry. The fair provides a venue for locals to exhibit their crafts, plants, vegetables, fruits, livestock and talents.

As a co-sponsor of the fair since its beginnings, the University of the Virgin Islands' Cooperative Extension Service showcases its many offerings including displays from the Research and Public Service component, like crops and animals from the Agricultural Experiment Station, literature on the Small Business Development Center and books from the Research Publications Unit.

Of the many activities surrounding the annual Agricultural and Food Fair, don't miss the presentation of Farmer of the Year, considered the top award, and the Fair Race for Children, a 1000-meter race through the exhibits. Virgin Islanders encourage visitors to partake in the festivities and enjoy the local offerings and flavors of the USVI Agricultural and Food Fair.

# Island Voyage

## A Side Trip to the British Virgin Islands

Uncrowded, pristine and unspoiled, the British Virgin Islands, with over 40 islands and cays, are surrounded by crystal clear waters, and dotted with historic ruins, protected park lands and natural wonders.

With only a small passage of water separating the U.S. and British Virgin Islands, it is easy to make a day trip to the BVI. Either fly to Tortola's brand-new Beef Island airport or take the ferry or rent a powerboat for the day to explore the islands by sea. A flight or ferry ride will place you in Tortola, the largest and most populated of the British Virgin Islands. West Indian charm permeates Tortola's main towns of Road Town and West End with colorfully painted buildings adorned with gingerbread trim.

Although ferries are available from Tortola to some of the other British Virgin Islands, for the day-tripper it is quicker to

see more of the islands by powerboat. Some popular stops include the Baths at Virgin Gorda, a rare rock formation of huge granite boulders and secreted sea pools; Norman Island, said to be the setting for Robert Louis Stevenson's Treasure Island and location of two superb snorkeling sites, the Caves and the Indians; and Jost Van Dyke, home to the famous Foxy's bar in Great Bay and the Soggy Dollar Bar on the pristine white beach of White Bay.

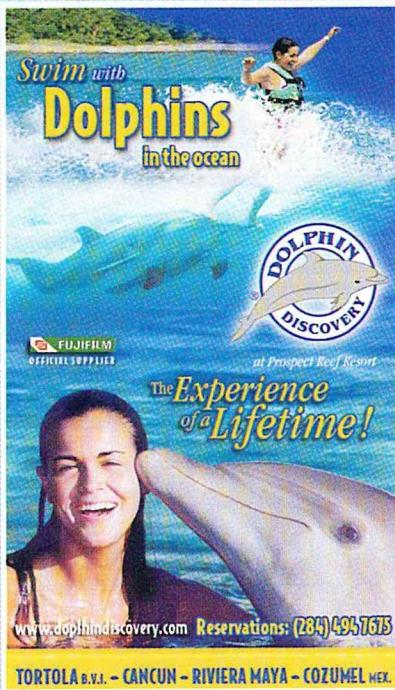

Whether by plane, ferry or powerboat, you must clear immigration and customs immediately upon entering the British Virgin Islands. Valid passports or an original birth certificate with a picture I.D. are required for U.S. and Canadian citizens.

**F**ood and drink play a central role in the Virgin Islands' culture. From the food fairs at carnival and festivals to parties, weddings, graduations and births, special occasions are celebrated with time-honored cultural dishes and libations.

Traditional local West Indian dishes come from a colorful culinary past mixing diverse ingredients and cooking techniques from the many cultures that occupied our islands, from early Amerindians roots to European influences to African inspirations. Many recipes were created out of need to get by on what was available locally since most could not afford supplies from passing ships.

Today you will find a medley of local foods including *kallaloo*, a dark green soup with a ham hock or

seafood base, *salt fish*, Caribbean *lobster*, *curried chicken*, *pates*, fried pastry usually filled with spicy ground beef, chicken or salt fish, *stewed mutton*, *curried goat*, *roti*, flat bread filled with curried meat or vegetables, *boiled fish*, *whelk*, a large marine snail, *barbeque*, *conch*, a mollusk used in chowder, fritters or stewed, and *johnny cakes*, a deep fried bread.

West Indian meals are typically served with many side dishes. Several you may choose from include *fungi*, a cornmeal and okra dish, *rice 'n peas*, the local version of red beans and rice, *plantains*, similar to a banana and usually fried or baked, or *bread fruit*, a large green fruit served as a starchy vegetable.

Stop by a local fruit stand to sample the many colors, textures and tastes of the local tropical fruits. The most familiar to visitors are banana, pineapple, mango, papaya, coconut, lime, guava and passion fruit. Others unique to the Caribbean are tamarind, genips, guavaberry, and soursop.

To enjoy the flavors of the Virgin Islands, seek out one of the various restaurants or food carts catering to the palates of the island residents.

# PLACES TO STAY

# Your Piece of Paradise

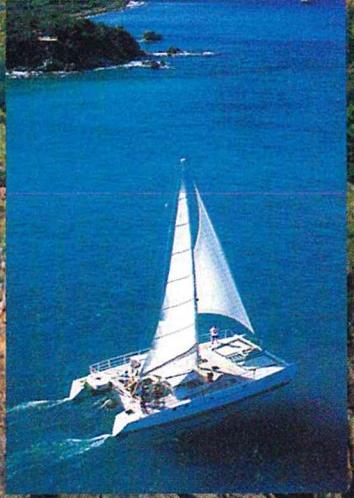

Have you been daydreaming about spending the rest of your days wading in the sand and surf of a tropical island? With almost perfect weather year round, cooling tradewinds, sparkling azure waters and brilliantly colored foliage, it's no wonder people dream of living in the islands.

The Virgin Islands may be your dream come true. Begin your pursuit of the idyllic island home by getting to know the personality of each island as you roam through ocean front properties, sprawling estates, mountain top parcels, historic town homes and lush acreages. Seek out that ideal second home, vacation house, land for the future or even a historic sugar mill to call your own.

Not only does the Virgin Islands possess that island ambience you crave but also the conveniences of a U.S. Territory with familiar laws, banking, TV, and other services. You'll find many friendly houses of worship for almost every denomination, service clubs such as the Rotary and Lions, volunteer work for various non-profit groups and many opportunities to interact with the community. For children there are good private schools, little league teams, dance classes and the Girl and Boy Scouts.

The realtors of the islands offer personalized service and share with you the delights and inconveniences of island living, so you can make educated decisions and end up with the island home you've been daydreaming about.

## The USVI Economic Development Program

By locating your business or part of your business to the U.S. Virgin Islands, you may be eligible to apply for unbelievable tax benefits and receive a substantial reduction in or exemption from your business and personal taxes. For qualifying businesses, unique Corporate Partnerships have been established to provide for expanded participation of the program by small and mid-size services and manufacturing companies. These partnerships can offer unique solutions for your company in the areas of estate planning, wealth preservation, and advanced tax planning.

The Economic Development Commission (EDC) tax exemptions are offered for ten to fifteen years, depending upon the island location of your business. These tax incentives include up to 90% exemption on local income taxes, 90% exemption on dividends, 100% exemption on gross receipts taxes, 100% exemp-

tion on property taxes, 100% exemption on excise taxes and 1% custom duties.

Other EDC benefits include an educated labor force, U.S. currency, courts and flag protection, easy air access, world-class telecommunications, 'Made in USA' labeling, duty free, quota free exporting of USVI made goods into the United States, immigration advantages, shipping advantages, no exchange controls and availability of prime rental space.

The EDC Program allows you to reap the benefits of a long-term business development initiative with a business climate that is second to none. Not to mention the opportunity to live in a tropical paradise with outstanding weather year-round, exciting water sports and activities, and an elegant island lifestyle.

# Getting Around

The proximity and relatively small size of our islands provide visitors with an exceptional opportunity to explore the Virgin Islands and all they have to offer. Getting around is fun and easy whether enjoying the sights at your own pace or with a knowledgeable tour professional.

## Car Rentals

If you like to sightsee at your own pace, it pays to rent a car or four wheel drive vehicle during at least part of your stay. Major roads are fairly well marked and the rental agencies provide free route maps.

The biggest challenge for U.S. drivers is acclimating to driving on the left side of the road. Rental agencies have put reminder stickers on the windshields and you will see "Keep Left" signs posted along the island roads to help you remember. On each island you will encounter hilly roads and hairpin turns, and out-of-the-way scenic dirt tracks that require a four-wheel-drive vehicle. Be

sure to take it slow until you feel comfortable with your road position and making turns.

A U.S. driver's license is valid in the islands for 90 days. If you are from another country, a visitor's driving permit can be arranged at most rental agency's service counters. Remember to wear your seatbelt at all times – it's the law.

## CAR RENTAL ON ST. JOHN

### ST. JOHN CAR RENTAL, INC.

Cruz Bay, Tel.: 776-6103

[www.stjohncarrental.com](http://www.stjohncarrental.com)

Let the experts at *St. John Car Rental, Inc.*, in business for more than 28 years, show you how to get around the beautiful island of St. John. Rent a Suzuki Sidekick or Vitara, Jeep® Wrangler or Cherokee, or the larger Montero, and we'll show you all the best sights and beaches. Our well-maintained vehicles

give you confidence and comfort as you explore our island. Look for us just one block to the right of the ferry dock. Major credit cards accepted.

## TAXI

Island taxis are unmetered and instead follow a standard rate sheet published by the V.I. Taxicab Commission. The driver is required by law to carry or post the rate sheet in their vehicle. Look for taxis that carry a dome light and have the letters TP on their license plate. Other taxis are not licensed and may not follow the official rate sheet. Round-trip fares are calculated at double the one-way fare plus waiting charges. Additional fees are charged for radio calls at an additional one third of the basic fare, for boxes, suitcases, grips and liquor boxes at \$1 each, and for pick-ups between midnight and 6:00 a.m. at an additional \$1.50 per person. Many taxi companies also offer hourly rates and sightseeing tours.

For taxi rates to and from the more popular destinations on St. Thomas, St. John and St. Croix, see the taxi rates on page 157.
